

Save money and reduce waste.

Silver King Majestic milk dispensers have been the industry leader of dependable bulk milk dispense for over 60 years. Available in single, double, or triple valve configurations, these dispensers are reliable and accommodate large crowds to meet any demand.

- Environmentally friendly R290 refrigerant
- Accommodates milk bags, bag-in-box, and stainless steel cans
- Spring-loaded valve with dripless operation for optimal sanitation
- Heavy-duty door hinges ensure long-lasting operation
- Digital temperature control for adjustable cabinet temperature

Individual milk cartons are a significant contributor to waste at schools, universities, and hospitals. A shift to bulk milk dispense can reduce overall waste by up to 40% — saving space, labor, and money. Silver King milk dispensers are available in three sizes to fit your needs and ensure the freshness of every drink.

High-Volume Flexibility

Designed to use flexible packaging, each crate or hopper can hold 3-gallon, 5-gallon, or 6-gallon bags. The dispenser also accommodates bag-in-box and manual fill stainless steel cans.

Eco-Friendly Refrigerant

All Silver King equipment features R290 refrigerant, one of the most environmentally friendly choices with a global warming potential (GWP) of 3. R290 is proven safe, readily available, and familiar to service teams.

Dripless Operation

The spring-loaded lift valve ensures dripless dispense for optimal sanitation, reduced waste, and convenient one-handed operation.

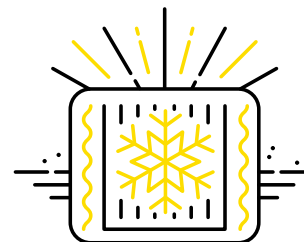

Easy to Clean

The stainless steel interior with coved corners, finished edges, removable door gasket, and elevated legs make cleaning simple.

Heavy-Duty Construction

Designed for high-traffic environments using a stainless steel exterior with galvanized bottom and heavy-duty door hinges to ensure long-lasting operation.

High-Density Insulation

Foamed-in-place, CFC-free polyurethane insulation keeps cold air in while strengthening the overall unit — improving overall cost savings.
