Diaz | Enhanced Design

Celebrating over 60 years of manufacturing heritage in Australia, the designers at Oliveri have created an enhanced, stylish sink that works in harmony with your modern kitchen. The crisp, square lines of the Diaz sink and drainer provide an elegant look that keeps within today's trend for minimalist décor. The versatility of the Diaz sink is enhanced through the optional custom designed accessories, which extend the flexibility of your benchtop, while transforming your Oliveri sink into a total hygienic food processing centre. If it's not an Oliveri, it's a compromise.

Stainless Steel Utility Tray

Provides extra defrosting surface. Included with the DZ10U and DZ163 models, the plastic rim was designed to eliminate injury from bare edged steel whilst minimising scratching.

Filter Tap Landing

Oliveri's designers have included a provision for fitting additional accessories such as filtered water taps or soap dispensers. (DZ101/2, DZ111/2, DZ133).

Unique Drainer Design

The inspired design of the Diaz drainer is modern and practical. The design reduces the appearance of scratches with the flat topped flutes, without sacrificing its stylish appearance.

Rear Outlets

Oliveri has placed the drain outlets towards the rear of the bowl to give you the maximum amount of usable space below the sink. Basket wastes are so included as standard with all Diaz sinks.

The practicality of a drainer

A total food preparation area

Large capacity bowls

with space to prepare food

with space for a dishwasher

to assist with entertaining

Accessories | Beyond a sink

The more you use your Oliveri sink the more you'll enjoy its sophisticated and functional design. The larger and deeper bowls make washing up easier and the impressive range of accessories transform any Oliveri sink into a total food processing centre. For instance, take the solid timber preparation board. In the morning you can use it for making sandwiches, at lunchtime it's simply perfect for preparing a salad, and when evening falls it even doubles as a stylish impromptu cheese board. Just one of the quality accessories that make Oliveri more than just a sink.

\$64.90
Accessory Pack

At the same time you order a new Oliveri Diaz sink, you can purchase an AC18 'D' Colander and AC15 Timber Preparation Board accessory pack for only \$64.90. That's 50% off RRP's

Offer is only available in conjunction with Oliveri Diaz sink purchase.
Offer expires 31st December 2009.

World Class Manufacturing

Over the years, the Oliveri signature has earned its reputation as a mark of excellence in design, function and durability. Overseas markets have also been impressed by the quality and innovative accessories that complement every Oliveri sink. Export sales continue to grow, further establishing Oliveri as one of the world's best stainless steel sinks.

The company began life as a general, domestic and metal fabricator in 1948. The founders pioneered the deep drawing technology in Australia, creating seamless, deep drawn stainless steel bowls.

Tasman Sinkware will continue to develop designs and styles suitable for any application where the highest standards are demanded.

Care & Maintenance

Oliveri sinks are manufactured from genuine 18/10, 304 grade stainless steel, for optimum hygiene and durability. However, no stainless steel sink was ever designed to do battle against hardened metal utensils or food processor blades, without incurring at least a few scratches.

The best prevention against scratching is to exercise a little extra care, or even to use one of Oliveri's accessory baskets when washing cutlery and the like.

To maintain the shine on your Oliveri sink, regular maintenance is recommended with any of the easy to obtain, non-abrasive stainless steel cleaners or metal polishes.

Genuine Oliveri

Beware of imitations as no one can match the quality and design of Oliveri sinks and accessories.

The Oliveri signature embossed into the stainless steel surface, as well as the distinctive Australian style packaging, ensures that your sink is a genuine Oliveri.

Full Range

Refer to Solid Surface & Contemporary Catalogues.

Individually Inspected

Each Oliveri sink is individually inspected for quality of construction and finish.

Raw materials are sourced worldwide, and must satisfy the highest standards before being accepted into the manufacturing process.

Tasman Sinkware currently produce their sinks and tubs to "world standard" best practice. The company is Quality Endorsed and all products are manufactured to Standard ISO 9001-2000, your guarantee of quality.

Current designs reflect the most modern and innovative styles and are crafted to suit even the most discerning homeowner.
