Pairing & Reconnecting

1. Please press and hold the power button on the side of the headphones for 3 seconds until the blue light is on, which indicates the headphones are turned on. Then the red and blue lights start to flash alternately, and the headphones enter the pairing mode.
2. Then go to the Bluetooth settings of your device, and choose "TRUEFREE F1" to connect the headphones. After the connection is completed, the blue indicator light of the headphones will stay on, and the headphones will prompt "connected".
3. The TRUEFREE F1 headphones can remember previously paired devices, and automatically enter the reconnection status for 10 seconds when powered on. When making a second connection, you only need to turn on the Bluetooth in your device, and make sure the headphones are turned on. They will automatically reconnect with your device. If they are not automatically connected, please select the pairing name of the headphones "TRUEFREE F1" in the Bluetooth list to connect.

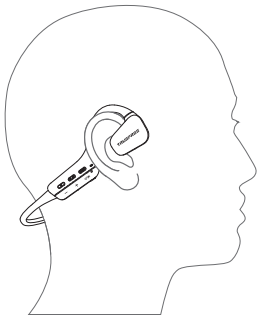

Reset

1. Clear the pairing data from your device.
2. Please use the Type-C charging cable to charge the headphones and ensure that the headphones are in charging status. Then press and hold the power button on the side of the headphones for 3 seconds until the red and blue indicators flash alternately twice, which indicates the reset is complete.

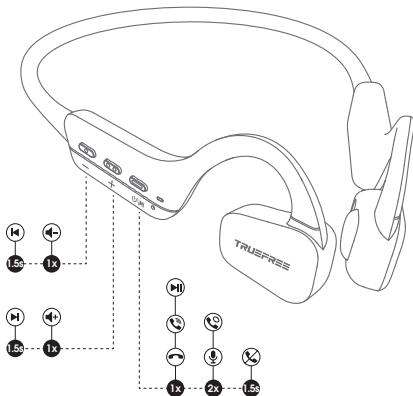

Wearing

Please wear it as shown below.

Product Diagram

Q&A

Q1. What does the indicator light on the headphones tell?

Power On	Blue light stays on
Power Off	Red light flashes once
Pairing Status	Red and blue lights flash alternately
Incoming Calls	Blue light flashes fast, and it flashes every 2 seconds after it is answered
Low Power	Red light flashes every 10 seconds
Charging	Red light stays on
Fully Charged	Blue light stays on
Reset Complete	Red and blue lights flash alternately twice
Disconnect Bluetooth	Red and blue lights flash alternately

Q2. How to charge the headphones?

First of all, please clean the headphones' charging port to ensure that there is no residual moisture and dirt. Then remove the silicone plug at the charging port, and connect the Type-C charging cable to the headphones for charging. When the headphones are charging, the red indicator light stays on. When the headphones are fully charged, the blue indicator light stays on.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

IC ID

- English: "

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device."

- French: "

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
