Made in China

Product Introduction

Light Mode

Bluetooth Indicator		Blue light flashes when not connected. Blue light steady when connected.
Charging Indicator		Red light flashes while charging. Red light turns off when fully charged.
Wireless Charging Indicator		White light turns on when charging a phone wirelessly. White light turns off when the phone is fully charged.
Foreign Object Detection (FOD) Indicator		White light flashes when foreign object detected (wireless charging disabled). White light steady/off when object removed (wireless charging resumes).

How to use

Power on / off	Press and hold the power button for 3 seconds to turn the device on or off. Bluetooth will be activated automatically when the device powers on. The device will automatically power off if Bluetooth is not connected or if the Bluetooth connection is disconnected for 5 minutes.
Play / Pause	Short-press to play or pause music.
TWS Connect / Disconnect	Double-press the power button to connect or disconnect TWS.
Bluetooth Disconnect / Reconnect	Triple-press the power button to disconnect or reconnect Bluetooth (including in TWS mode).
Call Mode	• Short-press to answer or end a call. • Press and hold to reject an incoming call. • Calls can also be managed via voice control: Say "YES" to answer the call, or "NO" to reject the call.

TWS Mode

Pairing Mode	Power on both devices and double-click either power button to pair; a tone confirms, and functions are synchronized.
Disconnecting TWS	Double-click power button on either device to disconnect TWS.
Reconnect TWS	Double-click the power button on Device A or B again to re-pair TWS.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FCC Statement :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- (1) Reorient or relocate the receiving antenna.
- (2) Increase the separation between the equipment and receiver.
- (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- (4) Consult the dealer or an experienced radio / TV technician for help.
