# Overview and Packaging

Smart Ring, Charging Cable, Charging Dock and User Manual

## Power On

Put smart ring at charging dock. Connect the charging dock to USB to charge and activate smart ring.

# Wearing Method

Wear the ring on your suitable finger and choose a comfortable size. Suggest wear it on the index finger, middle finger, and ring finger for better monitoring of data.

Please let the sensor on the inside of your fingers for more accurate measurement of heart rate and blood oxygen when wear it.

Download the CNICK app for iOS or Android and follow the on-screen instructions to set up and activate your ring.

Scan to download

**Correct hand position**

Tap your knuckle, not the ring,  
for better performance.

**FCC Statement**

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
