StarCard

User Manual

Overview Introduction

The Card integrates with Apple Find My network and Google Find Hub, making it secure and user-friendly solution for tracking items, providing a easy to locate keys, wallets, and more, with security and privacy at the forefront.

StarCard is designed for the convenience of users, simplifying daily life, allowing you to take the liberty to lost belongings and enjoy a peace of mind lifestyle.

Button Function

Power On

Tap the button once and hear 1 beep, the blue indicator light stays on for 2 seconds and then extinguishes.

Power Off

Press and hold the button (about 5s) until you hear 3 beeps, then release the button after the red light blinks three times.

Factory Reset

Tap the button quickly 3 times + long press the 4th time, once you hear a long beep, with the red indicator light will turn on for 1 second and then go off immediately.

How to Pair

Note: iOS or iPadOS version 14.5 or above;
Android phone or tablet with 9.0 or above.

You can choose to connect the card via the iOS or Android system, depending on the equipment you have.

Apple

- Place the Card next to your Apple device like iPhone.
- Turn on Bluetooth on iPhone and connect to Internet.
- Press the front button of the StarCard once to turn on the device.
- Open the 'Find My' app.
- In 'Find My' app, tap '+', then 'Add Other Item'.
- Once your Tag is located, tap 'Connect'.
- Enter a name and choose an emoji for your Card and tap 'Continue'.
- Find My will ask for confirmation to add your Card and tap 'Add Tag'.
- Tap 'Agree'.
- Apple ID, your Card will be set up and can be used.

Google

- Place the Card next to your Google device.
- Turn on Bluetooth on Phone and connect to Internet.
- Press the front button of the StarCard once to turn on the device.
- Open the 'Find Hub' app.
- The product pairing window will pop up automatically.
- Once your Tag is located, tap 'connect', then tap 'Accept and Continue'.
- Tap 'Done' or 'Open App'.

Note: Only compatible with international Android devices, with full Google Mobile Services (GMS) installed.

Battery

The StarCard supports wireless charging and is equipped with a 155mAh Li-Ion rechargeable battery. This allows you to recharge the Card with a wireless charging dock or other device while the product is in use.

Charging Instructions

- Align the side with the wireless charging logo and place on the charger that supports wireless charging.
- While charging, the red indicator light will remain on.
- When the battery is fully charged, the red light will turn off and the blue light will remain on.

Additional Tips

- When the device is paired with the Find My or Find Hub app, the phone needs to be linked to the Apple or Google server.
- Pairing failures may occur due to network issues. We recommend the following:
 - Change the cellular network, such as switching between WiFi and mobile networks;
 - Factory reset the device;
 - Re-pairing.
- To remove StarCard from your Apple device, open the Find My app, select 'Items', find the device, then scroll down and tap 'Remove this device'.

To remove StarCard from your Google device, please open the Find My app, find the device, tap 'Remove from Find Hub', and then tap 'Remove' twice.

4.3 Battery life varies depending on personal usage habits; frequent use of the calling function will accelerate battery consumption.

Important Matters

The Card contains delicate electronic, including a battery to avoid damage, loss of function, or potential harm. Please refrain from dropping, hitting, puncturing, crushing, disassembling, exposing it to extreme heat or liquids, or placing it in areas with a high concentration of industrial chemicals.

WARNING:

Do not swallow the battery; There is a chemical burn hazard.

Medical Device Interference

The StarCard contains components and radios that emit electromagnetic fields, as well as magnets. These elements may potentially interfere with pacemakers, defibrillators, or other medical devices. To ensure safety, maintain a safe distance between your medical device and the StarCard. We strongly advise consulting your physician and the manufacturer of your medical device for information that is specific to your situation. If you suspect that the StarCard is interfering with your pacemaker defibrillator or any other medical device, discontinue its use immediately.

Important Handling Guidelines

Its normal for the StarCard to show discoloration with regular use. To clean it use a soft, dry, lint-free cloth. Avoid applying pressure with sharp objects on the rubber seal or the battery terminal contacts inside the device. Do not allow moisture to enter any openings or use aerosol sprays, solvents or abrasive materials to clean the device.
