MINI FLASH LIGHT
User Manual
Ver. 1.0.2

WARNING

Do not use the device in the following situations:

- When the device is damaged or the battery is not fully charged.
- When the device is used in a hazardous environment (e.g., near flammable liquids or gases).
- When the device is used in a confined space.

WARNING

Do not use the device in the following situations:

- When the device is damaged or the battery is not fully charged.
- When the device is used in a hazardous environment (e.g., near flammable liquids or gases).
- When the device is used in a confined space.

Contents

- 1. Introduction
- 2. Safety Precautions
- 3. Operation
- 4. Maintenance
- 5. Troubleshooting
- 6. Warranty

1. Introduction

The llano MINI FLASH LIGHT is a compact, portable, and powerful flashlight. It is designed for use in a variety of situations, including emergency situations, outdoor activities, and home use.

2. Safety Precautions

Do not use the device in the following situations:

- When the device is damaged or the battery is not fully charged.
- When the device is used in a hazardous environment (e.g., near flammable liquids or gases).
- When the device is used in a confined space.

3. Operation

The device is operated by pressing the power button. The power button is located on the side of the device. The device has three modes: On, Off, and Strobe. The device can be switched between these modes by pressing the power button.

4. Maintenance

The device should be maintained in a clean and dry environment. The device should be stored in a cool, dry place. The device should be handled with care to avoid damage.

5. Troubleshooting

If the device does not work, check the battery level. If the battery is low, recharge it. If the device still does not work, contact the manufacturer.

6. Warranty

The device is covered by a 3-year warranty. The warranty is valid for the original purchaser only. The warranty does not cover damage caused by misuse or accident.
