SVC 45RD / SVC 45WH

Before first use, please read all instructions contained in this user's manual carefully, even if you are already familiar with using similar products. Only use this product in accordance with the instructions described in the user's manual. Keep the user's manual in a safe place where it can be easily retrieved for future use.

Save the original packaging, including the internal packing material, warranty card and proof of purchase receipt, at least for the duration of the warranty. If you need to ship this product, pack it in the original cardboard box to ensure maximum protection during shipping or transport (e.g. when moving or when you need to send this product for repair).

Revision 11/2014

IMPORTANT SAFETY NOTICE

1) Carefully unpack the product and take care not to throw away any part of the packaging before you find all the parts of the product.
2) This product must not be used by persons (including children) with physical or mental impairments or by inexperienced persons, unless properly trained or schooled in the safe use of the product, or unless they have been properly supervised by a qualified person who will be responsible for their safety.
3) Never use accessories that have not been delivered with this product or are not intended for it.
4) Under no circumstances should you try to repair or repair the product on your own - danger of electric shock! Entrust all repairs and adjustments to a specialised company/service. Tampering with the product during the warranty period may void the warranty.
5) Only store and use the product away from flammable or volatile materials and solutions.
6) Do not expose the product to extreme heat, direct sunlight and excessive humidity.
7) Do not place the product near heaters, open fires or other appliances or equipment that are sources of heat.
8) This product is designed for household use. Do not use it in industrial surroundings or outdoors!
9) Do not use the product for purposes other than those intended.
10) Before connecting the product to the power outlet ensure that the voltage on the label is the same as that in the power outlet.
11) Do not place the power cord near hot places or sharp objects. Do not place heavy objects on the power cord. Position the cord so that it will not be stepped on or tripped over. Make sure the power cord is not touching a hot surface.
12) If the power cord of the product is damaged have it repaired by an authorised service technician to prevent causing a dangerous situation. It is forbidden to use a product with a damaged power cord or plug.
13} Do not disconnect the power cord from the wall outlet by pulling the cord.
14) Do not spray the product with water or any other liquid. Do not pour water or any other liquids into the product. Do not submerge the product in water or any other liquid.
15) Never use the product near a bathtub, wash basin or any other container filled with water.
16) If you are not using the product, or if you know that you will not be using it soon, turn it off and disconnect the power cord from the wall socket. Prior to cleaning, proceed in the same manner.
17) Never leave the product switched on without supervision.
18) Use extra care if the product is used near children. Always keep the product out of the reach of children. Children must be supervised to ensure that they do not play with the product.
19) If the product is being used, do not block the air input and output openings. Blocked air vents can cause overheating and motor damage.
20) Vacuuming the below mentioned objects can damage your product or cause injuries to the operating person:
    - wet floor, water or other liquids
    - any type of sharp objects such as broken glass or ceramics, needles, pins, etc.
    - burning cigarettes, or smouldering pieces, matches or any other flammable or volatile liquids (e.g. gasoline, paint thinners, etc.)
    - flour, cement, plaster (i.e. dust from holes drilled in walls).
21) In order to avoid damaging furniture or injuries to persons, hold the cord in your hands as it winds up.
22) Pulling the power cord from the wall power outlet by force may cause damage.
23) Do not vacuum larger pieces of paper or plastic bags. They may easily clog the pipe or hose. If the product becomes blocked, turn it off by disconnecting the power cord from the socket and clean the pipe or hose.
24) In order to avoid damage to the hose, do not step on it or forcefully bend it. Do not use the vacuum if the hose is bent or damaged in any other way.
25) Do not move over the power cord with the vacuum cleaner.
26) Never use the vacuum cleaner without the protective motor filter, the output filter or the dust bag.

Copyright © 2014, Fast ČR, a.s.

27) Do not place the vacuuming hose, inlet nozzle or vacuuming accessories near to your eyes or ears.
28) Vacuuming of some types of floors or floor surfaces can create a static electricity charge, which is not dangerous for the user.
29) The manufacturer takes no responsibility for damages caused by the incorrect use of this product and its accessories (injuries, burns, scalding, fire, food spoilage, etc.).

Vacuum Cleaner

SVC 45BK / SVC 45BL / SVC 45GR / SVC 45RD / SVC 45WH

DESCRIPTION

A

1 Cord winding button
2 Full bag indicator
3 Air suction opening
4 START/STOP button
5 Vacuum cleaner handle
6 Vacuum cleaner wheel
7 Handle
8 Sliding knob for air suction
9 Tube
q; Floor inlet nozzle
qa Flap position for vacuuming carpets
qs Flap position for vacuuming hard (smooth) floors
qd Hose
qf Stopper for the parking position
qg Clip
qh Hose end

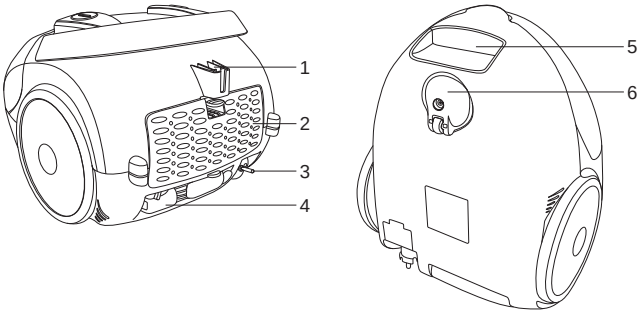
Revision 11/2014

Vacuum Cleaner

SVC 45BK / SVC 45BL / SVC 45GR / SVC 45RD / SVC 45WH

B



1 Parking position
2 Cover grill of the outflow filter
3 Power cord
4 Combination nozzle
5 Carry handle
6 Front wheel mechanism

ASSEMBLY

Insert the hose into the air suction opening

Press both the safety buttons on the end of the hose end and insert the hose end into the air suction opening on the vacuum cleaner until you hear a "click". The hose is now secured in correct position.

Attach the holder to the tube

Place the handle on the wider part of the assembled tube.

Attach the floor inlet nozzle to the tube:

Make sure the floor nozzle is attached the narrower part of the assembled tube.

INSTRUCTIONS FOR USE

Connecting your vacuum cleaner to the electrical power grid

Pull the plug attached to the power cord out from the vacuum cleaner until the desired length of the cord is out of the product. Insert the plug into the wall outlet.

Note:
Yellow marking on the supply cable warns that the cable is close to its end. Do not pull the cable more than to the red marking.

Adjusting the floor inlet nozzle according to the floor surface.
You may set the inlet nozzle according to the floor surface by adjusting the inlet flap:
- If you want to vacuum carpets, close the bristles of the inlet inside the inlet nozzle, by turning the flap accordingly.
- If you want to vacuum hard and smooth surfaces, move the bristles out of the nozzle, by turning the flap accordingly.

Turning your vacuum cleaner on and off
To switch your machine on or off, press the START / STOP button on the vacuum cleaner body.

Adjusting the suction strength
Suction can be controlled by a sliding flap on the hose handle.

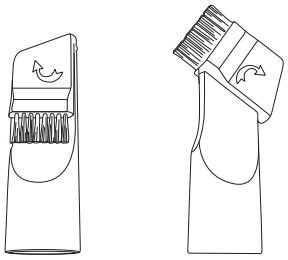
Tip:
If the hose holder becomes blocked when vacuuming, disconnect it from the tube and also disconnect the hose from the vacuum cleaner body. Then place the holder inside the suction hole on the vacuum cleaner body and vacuum the stuck dirt out.

Temporary interruption of the vacuuming process
If you wish to interrupt vacuuming for a short time, using the lug place the floor nozzle into the parking position in its rear part.

Note:
Do not move the vacuum cleaner from place to place if the hose is in the parked position! You may brake off the parking position holder!

Using your accessories
A space for the combination nozzle is located in the bottom part of the vacuum cleaner.
The combination nozzle may be used to vacuum in hard-to-reach spaces such as window frames, libraries, upholstery corners, joints, etc.). By turning the brushes out you get a brush nozzle suitable for vacuuming e.g. dust from smaller types of surfaces, grills, keyboards, etc.

C



Ending the vacuuming process
When you finish vacuuming, switch the vacuum cleaner off by pressing the START / STOP button and then disconnect the power cord plug from the socket.
To wind the power cord back to the vacuum cleaner, press and hold the winding button with one hand. Hold the cable with your other hand to protect the vacuum cleaner input area from damage.

Copyright © 2014, Fast ČR, a.s.

Tip:
If the winding process stops and part of the power cord is still outside, release the winding button and pull the cable out again by about 50 cm and press the winding button again and repeat the winding process.

Carrying your vacuum cleaner
If you need to carry the vacuum cleaner, you can hold it by the handle or the holder.

STORAGE OF VACUUM CLEANER

Before storage you can disassemble your product into the individual parts or you can store it assembled and lock the floor nozzle in the parking position.

CLEANING AND MAINTENANCE

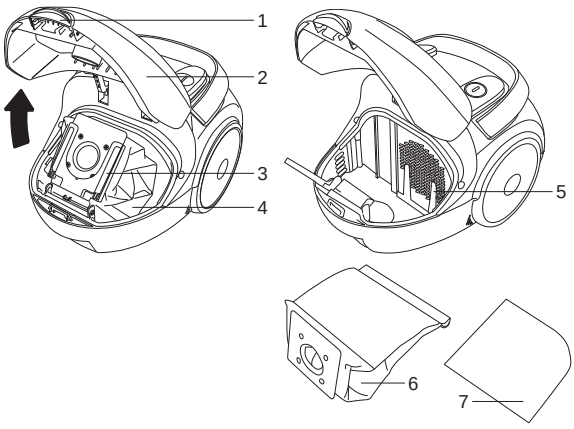
Note:
Always remove the power cord from the power socket before cleaning.

Changing the dust bag
If while the suction hose is lifted above the vacuumed area and the power is set to maximum and the full dust bag indicator seen through the clear window shows „full" (full colour in the indicator) then it is necessary to replace the dust bag:

1) Open the vacuum cleaner cover.
2) Remove the old dust bag from the plastic holder.
3) Insert a new one in the same position.
4) Close the vacuum cleaner cover.

D

1 Vacuum cleaner cover clip
2 Vacuum cleaner cover
3 Plastic dust bag holder
4 Dust bag
5 Outflow filter holder
6 Dust bag
7 Outflow filter



Copyright © 2014, Fast ČR, a.s.

Note:
Never attempt to wash paper bags as they are single use only and once full are to be disposed of together with household waste. It is only possible to wash textile bags!

Changing the inflow filter

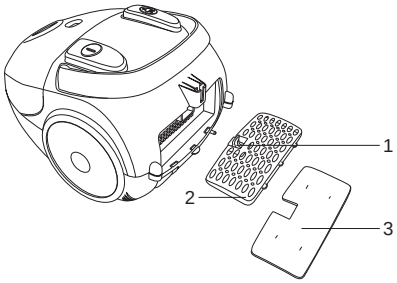
1) Open the vacuum cleaner cover and remove the inflow filter from its holder.
2) Replace the inflow filter with a new one and put it back into the vacuum cleaner.

Changing the outflow filter

1) Press the safety clip to open the grill of the outflow filter.
2) Remove the filter from the grill and replace with a new one.
3) Together with the grill put the new filter back into the vacuum cleaner.

E

1 Clip
2 Cover grill of the outflow filter
3 Outflow filter



To clean the outside parts of the product use a fine cloth dipped in lukewarm water. Do not use aggressive cleaning agents, paint thinners or solvents. Using these solutions could damage the surface of the product.

TROUBLESHOOTING

Before you decide to contact an authorized service centre, please read the following tips in the troubleshooting chart:

Problem	Possible cause	Recommended action
The motor will not start.	– The power cord is not connected correctly to the wall power outlet. – The wall power socket is damaged. – The vacuum cleaner is not switched on.	– Insert the plug firmly into the power socket. – Inspect the power socket. – Turn on the vacuum cleaner.
The suction output is weak.	– The dust bag is completely full. – The vacuum cleaner is clogged. – The filter is clogged.	– Change the dust bag – Remove the blockage or foreign object – Clean the filter.
The power cord is not wound in completely.	The power cord may have slipped down from the winding pulley during winding.	Hold the cable under tension while winding the cable.
The cable cannot be pulled out.	The cable is wound up incorrectly.	Press the winding button of the self winding cable and try to rewind the power cord again.
The output control does not function.	The vacuum cleaner is out of order.	Have the vacuum cleaner repaired (only by a qualified technician)
The power cord starts to wind in when it is not required.	The winding mechanism is damaged.	Have the vacuum cleaner repaired (only by a qualified technician).
The vacuum cleaner cover cannot be closed.	The dust bag is not inserted, or is inserted incorrectly.	Check the position of the dust bag in the plastic holder, or insert a new bag.

TECHNICAL SPECIFICATIONS

Nominal voltage . . . . . 220–240 V AC (alternate current)
Nominal frequency . . . . . 50/60 Hz
Nominal power input . . . . . 1200 W
Safety class (with regard to electric shock protection) II
Noise level . . . . . 82 dB(A)
Length of the power cord . . . . . 5 m
Operating range . . . . . 7.5 m
Dimensions (length x width x height) . . . . . 345 x 255 x 210 mm
Weight . . . . . 3.6 kg

The declared noise emission level for this appliance is 82 dB(A), which represents level A of the acoustic power relative to the reference acoustic power of 1 pW.

PRODUCT INFORMATION SHEET

Name/trademark	SENCOR
Model identification number	SVC 45BK, 45WH, 45RD, 45BL, 45GR
Energy efficiency class *	D
Annual power consumption (in kWh) **	44.2
Carpet cleaning efficiency class	F
Hard floor cleaning efficiency class	B
Vacuum cleaner dust emission class	E
Level of acoustic power (dB(A))	82
Rated power input (W)	1200

* Class A (highest efficiency class, low power consumption) to Class G (lowest efficiency class, high power consumption)
** Approximate annual power consumption (in kWh per year) based on 50 cleaning cycles. Actual power consumption will depend on how the appliance is used.

The values are determined pursuant to (EU) No. 665/2013.

SUPPLIED CONTENTS

1x vacuum cleaner
1x floor inlet nozzle
2x plastic tube
1x hose
1x combination nozzle
1x inflow filter
1x paper dust bag
1x outflow filter
1x user's manual
1x warranty card

INSTRUCTIONS AND INFORMATION REGARDING THE DISPOSAL OF USED PACKAGING MATERIALS

Dispose of packaging material at a public waste disposal site.

DISPOSAL OF USED ELECTRICAL AND ELECTRONIC APPLIANCES

The meaning of the symbol on the product, its accessory or packaging indicates that this product shall not be treated as household waste. Please, dispose of this product at your applicable collection point for the recycling of electrical & electronic equipment waste. Alternatively in some states of the European Union or other European states you may return your products to your local retailer when buying an equivalent new product. The correct disposal of this product will help save valuable natural resources and help in preventing the potential negative impact on the environment and human health, which could be caused as a result of improper liquidation of waste. Please ask your local authorities or the nearest waste collection centre for further details. The improper disposal of this type of waste may fall subject to national regulations for fines.

For business entities in the European Union
If you wish to dispose of an electrical or electronic device, request the necessary information from your seller or supplier.

Disposal in other countries outside the European Union
If you wish to dispose of this product, request the necessary information about the correct disposal method from local government departments or from your seller.

CE This product meets all the basic EU regulation requirements that relate to it.

Changes to the text, design and technical specifications may occur without prior notice and we reserve the right to make these changes.
