LED WORK LIGHT**

370-5486

OPERATOR'S MANUAL

CAUTION: To Reduce The Risk Of Injury, User Must Read And Understand Operator's Manual. Save These Instructions For Future Reference.

IMPORTANT SAFETY INSTRUCTIONS

READ AND UNDERSTAND ALL WARNINGS, CAUTIONS AND OPERATING INSTRUCTIONS BEFORE USING THIS EQUIPMENT. Failure to follow all instructions listed below may result in electric shock, fire and/or serious personal injury.

PRODUCT USE AND CARE

WARNING: TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK OR PERSONAL INJURY.

- Always unplug the charger/adaptor from light and power source when not in use.
- Do not look directly at the lighted lamps to avoid eye injuries.
- Always keep the work light away from any flammable surface or materials.
- Always check damaged or worn-out parts before using the work light. Broken parts will affect the work light operation. Replace or repair damaged or worn parts immediately. If repairs are needed, consult a professional electrician.
- Do not use a pressure washer to clean this product.
- Do not modify the work light in any way. Unauthorized modification may impair the function and/or safety and could affect the life of the product. There are specific applications for which the work light was designed.
- Store work light in a secure place out of the reach of children. Inspect it for good working condition prior to storage and before re-use.

SPECIFIC SAFETY INSTRUCTIONS FOR LITHIUM-ION BATTERY POWERED PRODUCTS

This work light is powered by a Lithium-ion battery. Lithium-ion batteries are small, compact and ideal for providing long-lasting power to this product. However they must be used and charged properly. Improper use can result in serious injury, fire or death.

CAUTION: This product comes with the battery installed internally. You are not allowed to install or remove the battery from the product.

- Do not place this lithium-ion battery powered product in fire or apply heat to it.
- Do not apply strong impact or shocks to this lithium-ion battery powered product.
- Do not allow the lithium-ion battery to get wet.
- Do not leave this lithium-ion battery powered product in the direct sunlight, or use or store it inside cars in hot weather. Doing so may cause the battery to generate heat, rupture, or ignite. Using the battery in this manner may also result in a loss of performance and a shortened battery life.
- NEVER THROW WATER ON A BURNING LITHIUM-ION BATTERY! If a lithium-ion battery does catch on fire, it will burn even more violently when contacted with water. Use a fire extinguisher.
- Store the product at temperature between 41°F and 77°F (5°C and 25°C).

SAVE THESE INSTRUCTIONS

IMPORTANT BATTERY INFORMATION: DISPOSING OF THE BATTERY

- Your batteries are LITHIUM-ION rechargeable batteries. Certain Local, State and Federal laws prohibit disposal of these batteries in ordinary trash.
- Consult your local waste authorities for your disposal/recycling options.
- More information regarding battery disposal in U.S. and Canada is available at; <http://www.rbrcc.org/index.html>, or by calling 1-800-822-8837 (1-800-8BATTERY).

SPECIFICATIONS

Output Power: 10 Watts
Brightness: 1000/500 Lumens
Color Temperature: 5000K Bright White
Run Time: 2/4 Hours
Battery: Lithium-Ion 3.7V, 4.0Ah
Recharge Time: 5 Hours
Net Weight: 0.78 lb

OVERVIEW

- 1. Frosted Lens
- 2. Stand/Handle
- 3. On/Off Switch
- 4. Battery Power Indicator
- 5. Charging Port
- 6. 1/4" Thread Hole for Tripod Mount
- 7. USB Charging Cable

UNPACKING AND CONTENT

IMPORTANT! Due to modern mass production techniques, it is unlikely the product is faulty or that a part is missing. If you find anything wrong, do not operate the product until the parts have been replaced or the fault has been rectified. Failure to do so could result in serious personal injury.

OPERATION

CHARGING THE WORK LIGHT (FIG 1)

This rechargeable work light is shipped with the battery partially charged. Charge the work light after purchase and before first use by connecting the included USB charging cable to a USB power output, a cellular phone power adaptor or a laptop USB port for example.

1. Make sure the work light is off.
2. Lift the rubber cover to expose the charging port (5).
3. Connect the micro end of the USB charging cable to the charging port.
4. Connect the USB end of the charging cable to a USB power output (not included).
5. The battery power indicator (4) will be flashing blue, indicating charging is in progress.
6. Once all 4 bars of the power indicator turn solid blue, the charging is completed.

STAND/HANDLE (FIG 1)

The stand/handle (2) rotates 180° to turn it to be a stand, a carrying handle or in a flat storage position. There is a 1/4" metal screw hole in the middle for a tripod mounting.

ON/OFF SWITCH (FIG 1)

The work light is equipped with an On/Off switch (3). Press the switch once to turn the work light on at its full brightness press the switch a second time to be its half brightness, and press the switch the third time to turn it off

NOTE: The work light is always on its brightest setting when switched on.

MAINTENANCE

WARNING: Do not modify the work light in any way. Unauthorized modification may impair the function and/or safety and could affect the life of the product. There are specific applications for which the work light was designed.

There are no user-replacable parts. Periodically inspect the condition of adaptors, connectors and wires. Contact the manufacturer to replace any components that have become worn or broken.

WARRANTY

This product is warranted free from defects in material and workmanship for 1 (one) years after date of purchase. This limited warranty does not cover normal wear and tear or damage from neglect or accident. The original purchaser is covered by this warranty and it is not transferable.
