

INDUCTION COOKERS

These single burner countertop induction cookers are safer than traditional cooktops. They also provide faster heat times, which makes them perfect for your busy restaurant kitchen or for display cooking. With durable stainless steel housing and ceramic top these units are easy to clean. With adjustable temperature controls that heat to 464° Fahrenheit. All units contain a self checking automatic shutoff feature and a safety overheating sensor. ETL, ETL sanitation, FCC. Retail pack.

DROP-IN INDUCTION COOKERS

These new drop-in induction cookers give you the ability to convert any area in your kitchen or front-of-house into a stovetop. Made with a cool to touch, easy to clean ceramic glass surface, these items are powerful enough to cook in high volume kitchens. Designed to use with induction-ready cookware, these drop-ins are available in 2 models: with or without remote control box.
