

**Smart Wi-Fi Controller for
Air Conditioners & Heat Pumps**

Cielo Breez Eco
User Manual

Getting Started

For best results, connect Cielo Breez Eco smart controller with the **provided USB cable and adapter**. Then, mount your Breez Eco on a wall, or place it on a table **in your AC's line of sight** and plug it into a power source.

For optimal placement and control:

- Make sure Breez Eco is **in the line of sight** of your air conditioner or heat pump.
- To avoid deviated sensor readings, **do not place Breez Eco where** it may be exposed to **excessive sunlight or other heat sources**.

Special Note: It is strongly advised that whenever there is a need to use the remote control for AC/heat pump, point it towards Breez Eco while performing any action. This way, your AC/heat pump and Cielo Home app will always be in sync.
