	Features     25W	Safety information EC Warning This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and may receive radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio communications, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into a different wall outlet. - Consult the equipment user manual for additional troubleshooting techniques for help. FCC RF Exposure Statement: The equipment complies with FCC and also exposure limits and limits for an uncontrolled environment. The equipment should be installed and operated with minimum distance between the radiator and your body.	ISED Notice Read the manual for this device (RCS-001-001) that is located in the user manual folder. This device complies with the requirements of the Canadian Radio-television and Telecommunications Commission (CRTC) for Class B digital devices. This device must not cause interference. This device must accept any interference, including interference that may cause undesired operation of the device. RF Radiation Statement: The equipment complies with ISED Radiata exposure limit set forth for uncontrolled environments. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body. For detailed information on this equipment's compliance with the requirements of the Canadian Radio-television and Telecommunications Commission (CRTC), please refer to the user manual. Get approved to sell your device in the United States, visit https://www.fcc.gov. Get approved to sell your device in the United Kingdom, visit https://www.ofcom.gov.uk. Declaration of Conformity I, the undersigned, declare that this equipment complies with the requirements of the European Union for the use of radio equipment in the frequency range 863-865 MHz and 868-869 MHz. Declaration of Conformity I, the undersigned, declare that this equipment complies with the requirements of the European Union for the use of radio equipment in the frequency range 863-865 MHz and 868-869 MHz.	UKCA Declaration of Conformity CMS Industries hereby declares on its own responsibility that the product conforms to the essential requirements of the UK Regulations.
