

RA01 Rackmount ear kit for rackmountable SilverStone cases

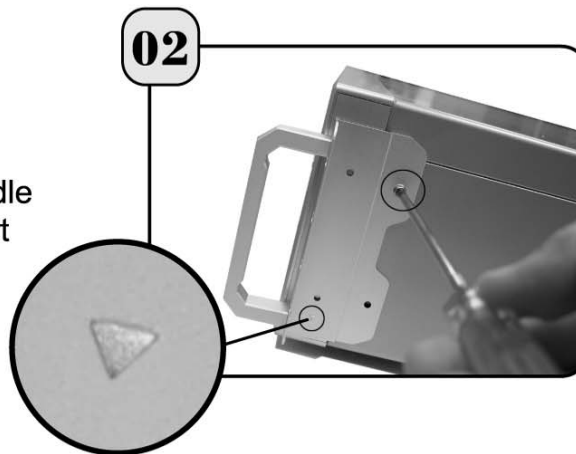

1. The RA01 is intended to be used in conjunction with SilverStone desktop products that are equipped with rackmount mounting holes. This product may not work with cases manufactured by other companies.
2. The main function of RA01 is to aid in securing your SilverStone desktop products to a rack storage, please DO NOT make RA01 as the sole supporting structure for the whole case, you should still use a rackmount tray or sliding rail to help with weight support.

01

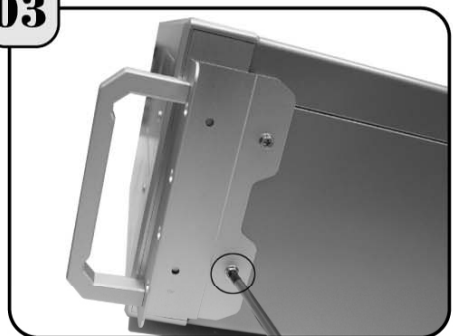

#6-32 screw x 4pcs,
one left support handle
and one right support handle.

02

Please choose the
appropriate hole to screw
the handle to the top part
of the casing, make sure
the triangle is pointing
downward.

03

Fasten the second
screw.

04

Installation complete, you
can now install the case
into a rackmount!
