

Installation Manual

Product Specification

WEELMOTO™ Headlight Assembly
Compatible with 2003-2007 Honda Accord 2/4dr

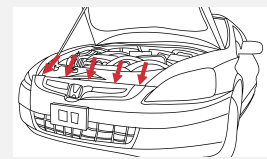

Before Installation

- Professional installation is recommended.
- Do not touch the bulb with bare hands. Oil can affect the lifespan of the bulb. If you accidentally touch the bulb, please clean it with rubbing alcohol and a soft cloth before installation.

Installation Steps

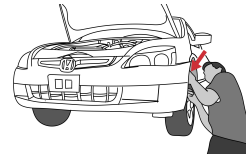

Step 1

Use a screwdriver to remove the five clips on the top and others on the bottom (two are located in front of the wheel).

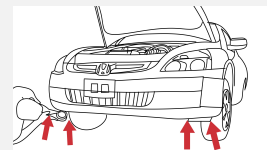

Step 2

Remove one screw on each side in front of the wheel.

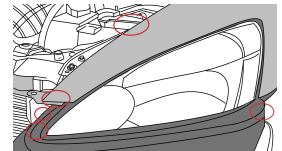

Step 3

To remove the bumper, take out the four 10mm bolts from the bottom and pull the bumper out from the sides (there are two clips in the middle; make sure to pull upward to release them).

Step 4

Remove the five 10mm bolts to take off the old headlamp assembly. Unplug all lights, insert the WEELMOTO headlight, insert the bulbs, twist to seal, plug in all the lights, and reinstall all the bolts.
