Installing / Removing the Base Stand

The parts

TV set

Neck/Stand / Screws

Installation

Place the TV face down on a soft and flat surface (blanket, foam, cloth, etc.) to prevent any damage to the TV.

Fix the base to the neck with 4pcs BB3*8 Screw.

Align the 4 holes in the back cabinet with the holes in the neck, then insert 4 pcs PB5*14 screws with a screwdriver.

This unit is VESA-Compliant and designed to be wall mounted with a VESA-Compliant 100x100 mm mounting kit.

Mount this unit according to the instructions of the wall bracket(not supplied)

*** Please assemble the stand cover into the unit in order to protect your unit while using the wall mount.**

Front / Right Side View and Controls

Item	Description
1 POWER LED	Illuminates green when the TV is turned on. Illuminates red when the TV is in standby mode. The LED will alternate between red and green when the PVR timer programming has started in the standby mode.
2 IR (Infrared Receiver)	Receives IR signals from the remote control. Do not put anything near the sensor, as its function may be affected.
3 VOL + / - 4	Adjusts the volume. Press to select and adjust a setting in the OSD menu.
5 CH +	Press to select a channel or select a sub-menu from the OSD menu.
6 CH -	Press to select a channel or select a sub-menu from the OSD menu.
7 MENU	Displays the OSD (on screen display) menu.
8 SOURCE	Press to select among different input signal sources: DTV, ATV, AV, COMPONENT, HDMI1, HDMI2, HDMI3, PC, MEDIA, DVD. Confirmed the selection on OSD menu.
9 STANDBY	Switches the TV on from standby mode. Switches the TV back to standby mode.
10 DVD Slot	Insert the DVD disc.
11 PLAY	Play or pause.
12 EJECT	Eject the disc.

Rear View and Sockets

Socket	Description
1 VGA / PC Audio in	To connect to a computer or other devices with a VGA interface.
2 AV	To connect to the Composite VIDEO and AUDIO (L/R) output sockets on external video devices.
3 Digital Audio out (Coaxial)	To connect to the audio socket on the digital/standard 5.1 audio system.
4 HDMI1/HDMI2/HDMI3	To connect to a High-Definition (HD) signal output device, such as a set-top box, blu-ray disc player or AV receiver.
5 USB	Allows the insertion of a USB storage device to play video, audio, photo and text files (Media mode) and record DTV programmes on to a USB storage device.
6 RF	To connect to the aerial socket on the wall with the RF coaxial cable.
7 YPbPr	Color difference components input and relevant video input.
8 Audio OUT	Connect to 'AUX IN' on RV/Board sound system or similar device
9 DC 12V	Connect the AC power pack to the 12V DC IN connection on the TV.

Installing Batteries in the Remote Control

1. Press and lift the back cover to open the battery compartment of the remote control.
2. Insert two 1.5V AAA size batteries. Make sure to match the (+) and (-) ends of the batteries with the (+) and (-) ends indicated in the battery compartment.
3. Close the battery compartment cover.

Handling the Batteries

- Improper or incorrect use of batteries may cause corrosion or battery leakage, which could cause fire, personal injury or damage to property.
- Only use the battery type indicated in this manual.
- When the batteries are exhausted, the remote will not function. Replace both batteries at the same time with new ones.
- Do not install new batteries with used ones and do not mix different types of batteries.
- Do not dispose of used batteries as domestic waste. Dispose of them in accordance with local regulations.

Handling the Remote Control

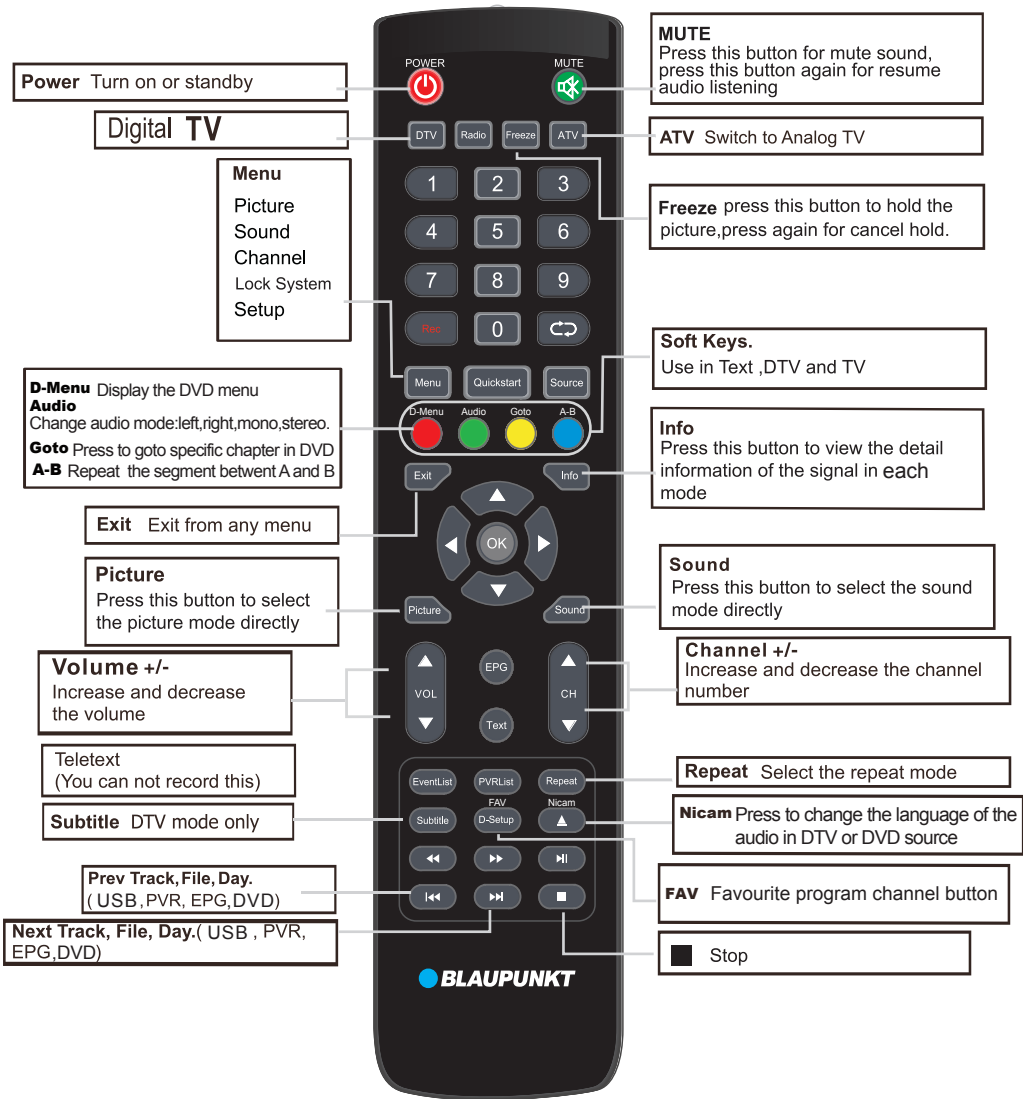

- Take care of your fingernails when you press and hold the battery release tab.
- Do not drop or cause impact to the remote control.
- Do not spill water or any liquid on the remote control.
- Do not place the remote control on a wet object.
- Do not place the remote control under direct sunlight or near sources of excessive heat.
- Remove the battery from the remote control when not in use for a long period of time, as it could cause corrosion or battery leakage and may result in physical injury and/or property damage including fire.

Remote Control Operation Range

Point the remote control at the TV no more than 5 metres from the remote control sensor on the TV and within 60° in front of the TV. The operating distance may vary depending on the brightness of the room.

Remote Control

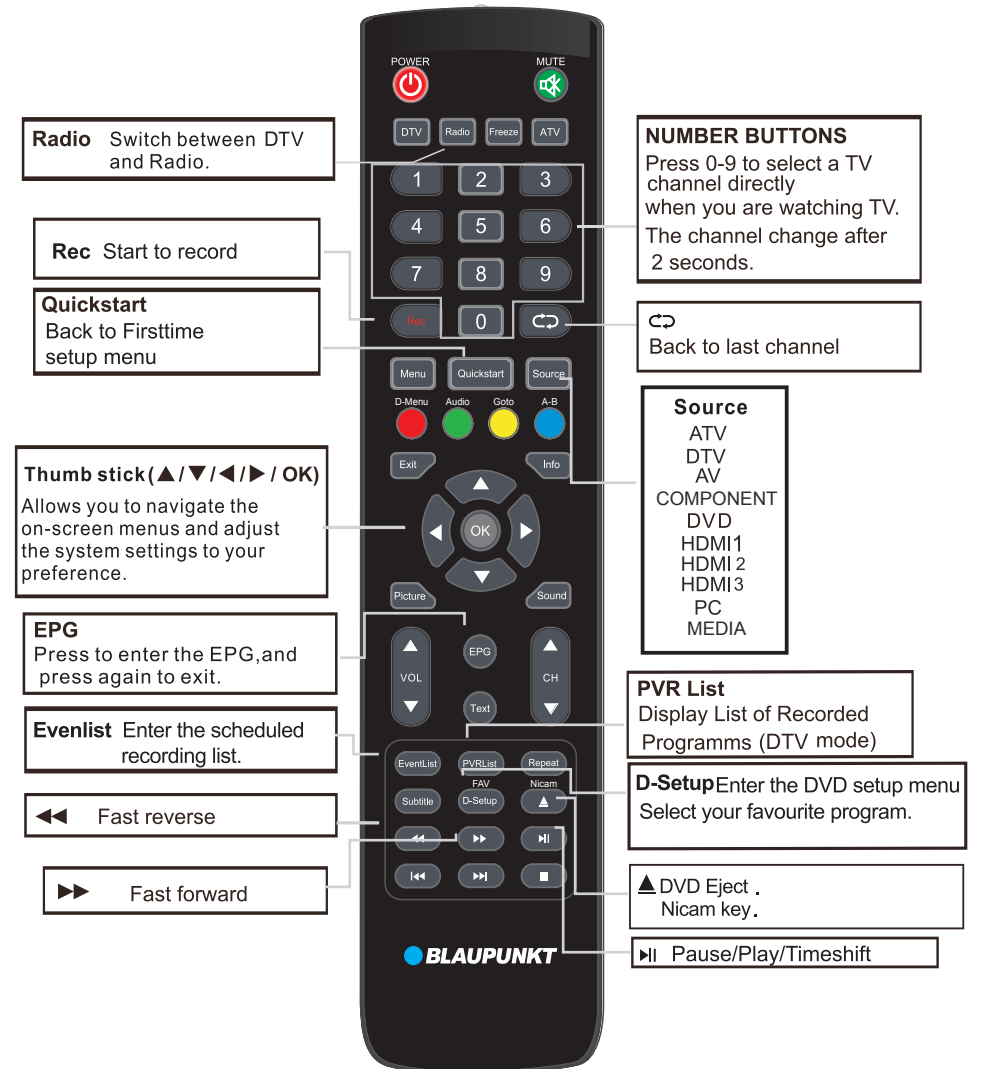

Replacement Remote part number:BPRC15
Remote Code:807F

Remote Control

■ Functions of remote control buttons

Dependant on the model of the TV some keys will have no function

Making Video and Audio Connections

Not all AV devices have the ability to connect to a TV, please refer to the owner's manual of your AV device for compatibility and connection procedures.

When connecting any external AV device, do not connect the mains cable to the mains socket until all other connections are complete.

Best Video Performance	Signal Type	Separate Audio Connection Required
 HDMI	HDMI (480i/480p/576i/576p/720p/1080i)	No
 VGA	PC	Yes  PC AUDIO
 Y Pb Pr	Component Video (480i/480p/576i/576p/720p/1080i)	Yes  L R
 VIDEO L R	Composite Video	Yes  L R

Connecting an AV Device with an HDMI Cable

- This TV can accept High-Definition Multimedia Interface (HDMI) and supports HDCP (High-Bandwidth Digital Content Protection) Protocol.
- The TV has a total of 3 HDMI input sockets, please make sure the correct input source is selected corresponding to your connected HDMI input socket.
- When you connect to the output of an HD ready player (blu-ray disc player, game console, set-top box or computer) switch to the HDMI function and the TV will automatically detect the resolution used by the HDMI source.
- To get the best picture quality, adjust the blu-ray disc player, game console or set-top box output resolution up to 1366x768p.

1. Use an HDMI cable to connect the TV's HDMI input socket to the external AV device's HDMI output socket.
2. Plug the connected devices into the mains socket
3. Press the **STANDBY** button on the TV or the  button on the remote control to turn on your TV.
4. Press the **SOURCE** button on the TV or the **SOURCE** button on the remote control to display the Source List. Use the   buttons to select **HDMI** and then press the **OK** button to confirm.

 Although this TV is able to connect to an HDMI device, it is possible that some devices may not operate correctly.

Waste Electrical Recycling

Correct disposal of Product

This sign indicates that this product may not be disposed of with your regular household waste. The recycling and separate collection of such products is your responsibility. Please drop off the above mentioned waste at a designated place for recycling waste electrical and electronic equipment. If you do not know where to drop off your waste equipment for recycling, please contact your local city office or household waste collection service.

The crossed out wheeled dust bin symbol indicates that batteries and /or accumulators must be collected and disposed of separately from household waste.

If the battery or accumulator contains more than the specified values of lead (Pb), mercury (Hg), and/or cadmium (Cd) defined in the Battery Directive (2006/66/EC), then the chemicals symbols for lead (Pb), mercury (Hg) and/or cadmium (Cd) will appear below the crossed out wheeled dust bin symbol.

By participating in separate collection of batteries, you will help to assure the proper disposal of products and batteries thus help to prevent potential negative consequences for the environment and human health.

For more detailed information about the collection and recycling programmes available in your country, please contact your local city office or the shop where you purchased this product.

Connecting a Computer with a VGA Cable

1. Use a VGA cable to connect the TV's PC input socket to a computer's VGA output socket. Use an audio cable to connect the TV's PC AUDIO input socket to the computer's audio output socket.
2. Plug the connected devices into the mains socket
3. Press the **STANDBY** button on the TV or the **⏻** button on the remote control to turn on your TV.
4. Press the **SOURCE** button on the TV or the **SOURCE** button on the remote control to display the Source List. Use the **▲▼** buttons to select **PC** and then press the **OK** button to confirm.

- The best resolution is 1366×768
- If your computer is set to shut down after a few minutes of idle mode, the TV will also switch to standby due to no signal being received, this is to save energy. Press the **STANDBY** button on the TV when viewed from the front or the **⏻** button on the remote control to restart the TV.

Connecting an AV Device with a Component (YPbPr) Cable

1. Use a component cable to connect the TV's YPbPr input sockets to an external AV device's component output sockets.
2. Use an AV cable to connect the TV's AV input sockets to the external AV device's component audio output sockets. (Audio Left = white, and Audio Right = red)

Component port on the TV	YPbPr		
Video output ports on DVD player	Y	Pb	Pr
	Y	Cb	Cr

3. Plug the connected devices into the mains socket
4. Press the **STANDBY** button on the TV or the **⏻** button on the remote control to turn on your TV.
5. Press the **SOURCE** button on the TV or the **SOURCE** button on the remote control to display the **Source List**. Use the **▲▼** buttons to select **COMPONENT** and then press the **OK** button to confirm.

Connecting an AV Device with Composite Cable

1. Use an AV cable to connect the TV's Mini AV input sockets to an external AV device's composite audio/video sockets. (Video = yellow, Audio Left = white, and Audio Right = red)
2. Plug the connected devices into the mains socket
3. Press the **STANDBY** button on the TV or the **⏻** button on the remote control to turn on your TV.
4. Press the **SOURCE** button on the TV or the **SOURCE** button on the remote control to display the Source List. Use the **▲▼** buttons to select **AV** and then press the **OK** button to confirm.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the unit's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the manual accompanying the unit.

- Make sure that there is a gap of at least 10 cm on both sides and a gap of 20 cm at the top.

Headphones

- Listening to loud sounds for prolonged periods of time may permanently damage your hearing.
- Before putting on headphones, turn the volume down then put the headphones on and slowly increase the volume until you reach a comfortable listening level.

Standby

- The **⏻** button on the remote control does not switch off the unit completely. The unit will continue to draw electricity from the mains supply while in standby. In the interests of safety and to avoid unnecessary energy consumption, never leave the unit in standby while unattended for long periods of time, e.g. overnight, while on holiday or while out of the house. Switch it off and disconnect the mains plug from the mains socket.

Batteries

- Batteries used in the remote control for this unit are easily swallowed by young children and this is dangerous.
- Keep loose batteries away from young children and make sure that the battery holder tray is secure in the remote control. Seek medical advice if you believe a cell has been swallowed.
- Please dispose of batteries correctly by following the guidance in this manual.

Supervision

- Children should be supervised to ensure that they do not play with the unit and the remote control.
- Never let anyone especially children push anything into the holes, slots or any other openings in the case - this could result in a fatal electric shock.

2. **TV Channel Logos:** e.g. Shopping channel logos and pricing displays - especially if they are bright and stationary. Moving or low-contrast graphics are less likely to cause ageing of the screen.

3. Time Displays

4. TV Menus

5. **Pause Mode:** Do not leave the screen in pause mode for long periods of time, e.g. when watching videos.

To prevent screen burn if viewing any of the above for long periods of time, reduce contrast and brightness when viewing. Once burn-in occurs it will never disappear completely.

Service

- To reduce the risk of electric shock, do not remove screws. The unit does not contain any user-serviceable parts. Please leave all maintenance work to qualified personnel.
- Do not open any fixed covers as this may expose dangerous voltages.

Maintenance

- Ensure to unplug the unit from the mains socket before cleaning.
- Do not use any type of abrasive pad or abrasive cleaning solutions as these may damage the unit's surface.
- Do not use liquids to clean the unit.

Important Note

This TV is fitted with the latest ECO friendly power saving technology. If whilst viewing the TV remote control is not used for a period of 4 hours, the Auto Standby feature will operate and power down the TV. A warning message will be displayed to inform you that the TV is about to power down.

Disable this feature by setting the AUTO POWER OFF option in the main Menu / FEATURE to NEVER.

Packaging materials are not toys. Please keep away from children. Plastic bags can cause suffocation when pulled over the head.

Connecting a Digital Audio Receiver

For better sound quality, you may want to play the audio through your multi-channel audio receiver.

1. Use an audio cable to connect the TV's Digital Audio out socket to an external audio receiver's audio coaxial input socket.
2. Plug the connected devices into the mains socket
3. Press the **STANDBY** button on the TV or the **⏻** button on the remote control to turn on your TV.
4. Press the **SOURCE** button on the TV or the **SOURCE** button on the remote control to display the Source List. Use the **▲▼** buttons to select any desired input source and then press the **OK** button to confirm.

The TV's volume control will have no effect. You may control the audio level via the Audio Receiver.

Turning the TV on for the First Time

1. Connect one end of the RF coaxial cable to the aerial socket on the wall and the other end of the cable to the Aerial socket at the rear bottom of your TV.

 Do not connect the TV to the mains supply until you have completed all the connections.

2. Connect the mains cable to the mains socket after you have completed all the connections.

3. At this stage, the TV switches to standby mode. The red LED indicator will illuminate on the front panel of the TV.

- 
- Always disconnect the TV from the mains socket when not in use for a long period of time.
 - The **STANDBY** button on the TV or the  button on the remote control is only used for switching the TV into standby, it does not disconnect the TV from the mains power. To completely disconnect the mains power, please remove the mains cable from the mains socket.

Safety Warnings

- Read all the instructions carefully before using the unit and keep them for future reference.
- Retain the manual. If you pass the unit onto a third party make sure to include this manual.
- Check that the voltage marked on the rating label matches your mains voltage.

Damage

- Please inspect the unit for damage after unpacking.
- Do not continue to operate the unit if you are in any doubt about it working normally, or if it is damaged in any way - switch off, withdraw the mains plug and consult your dealer.

Location of Unit

- The unit must be placed on a flat stable surface and should not be subjected to vibrations.
- Do not place the unit on sloped or unstable surfaces as the unit may fall off or tip over.
- The mains socket must be located near the unit and should be easily accessible.
- This unit is designed for indoor use only.

Temperature

- Avoid extreme degrees of temperature, either hot or cold. Place the unit well away from heat sources such as radiators or gas / electric fires.
- Avoid exposure to direct sunlight and other sources of heat.

Naked Flames

- Never place any type of candle or naked flame on the top of or near the unit.

Moisture

- To reduce the risk of fire, electric shock or product damage, do not expose this unit to rain, moisture, dripping or splashing. No objects filled with liquids, such as vases, should be placed on the unit.
- If you spill any liquid into the unit, it can cause serious damage. Switch it off at the mains immediately. Withdraw the mains plug and consult your dealer.

Ventilation

- To prevent the risk of electric shock or fire hazard due to overheating, ensure that curtains and other materials do not obstruct the ventilation vents.
- Do not install or place this unit in a bookcase, built-in cabinet or in another confined space. Ensure the unit is well ventilated.

Safety

- Always disconnect the unit from the mains supply before connecting / disconnecting other devices or moving the unit.
- Unplug the unit from the mains socket during a lightning storm.

Mains Cable

- Make sure the unit or unit stand is not resting on top of the mains cable, as the weight of the unit may damage the mains cable and create a safety hazard.
- If the mains cable is damaged it must be replaced by the manufacturer, its service agent, or similarly qualified persons in order to avoid a hazard.

Interference

- Do not place the unit on or near appliances which may cause electromagnetic interference. If you do, it may adversely affect the operating performance of the unit, and cause a distorted picture or sound.

Optimum viewing

- View the unit in moderate light to prevent eye strain. It is recommended to watch the unit from a distance 3-7 times that of the screen height.

LED screen

- The LED screen is manufactured using high-precision technology. However, some tiny black points and / or bright points (red, blue or green in colour) may constantly appear on the LED screen. These points are generated in the manufacturing process and are normal.

Screen Burn

- A characteristic of Plasma and LED TV Panels is that displaying the same image for a long time may cause a permanent after-image to remain on the screen. This is called screen burn. Most pictures shown on the unit will be constantly moving and fill the screen.

- Examples of images that you need to watch out for are as follows (this is not an all-inclusive list):

1. **Black Bars:** If black bars appear at the left / right or top / bottom of the screen, it is recommended to change the format so that the picture fills the entire screen.

Specifications

Model	BP2212MHDV
Panel System	21.5" inch LED Panel

Menu Operation

This section explores the menus of your TV. Each menu is outlined and detailed to help you get the most from your TV.

To access the main menu page press **MENU** on the remote.

Press **▲/▼** to cycle through the seven main functions below:

PICTURE

SOUND

CHANNEL

FEATURE

SETUP

Source Selection

To access the input source's press **Source** on the remote.

Press **▲/▼** to move the cursor

Press **OK** to confirm your selection

Features and specifications are subject to change without prior notice.

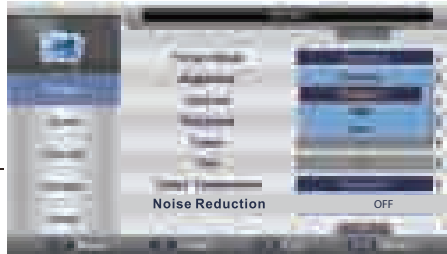

Picture Menu

Allows you to set your preferred picture mode.

1. Press the **Menu** button and then press the **▲▼** buttons to select the **PICTURE** menu.
2. Press the **OK** or **▶** buttons and then press the **▲▼** buttons to select the following picture options and then press the **OK** button.

Picture Mode Press the **▲▼** buttons to cycle among picture mode: Standard / Optimal Soft / User and then press the **OK** button to confirm.

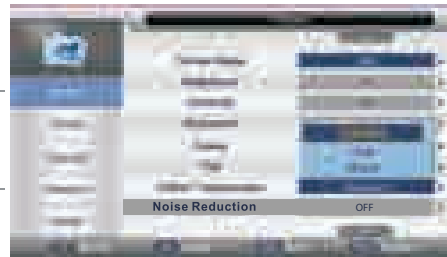

Alternative

You may press the **Picture** button once and then press the **◀▶** buttons to select the picture mode directly.

Brightness Press the **◀▶** buttons to increase or decreases the amount of white in the picture.(for User mode)

Contrast Press the **◀▶** buttons to adjust the difference between light and dark levels in the picture.(for User mode)

Sharpness Press the **◀▶** buttons to adjust the level of crispness in the edges between light and dark areas of the picture.(for User mode)

Colour Press the **◀▶** buttons to control the colour intensity.(for User mode)

Tint (For NTSC format) Press the **◀▶** buttons to adjust the balance between red and green levels. (Tint is only available for NTSC signal input via the SCART or AV IN.)

Colour Press the **▲▼** buttons to cycle among

Temperature colour temperature: Standard / Cool / Warm and then press the **OK** button to confirm.

Adjusts the colour components independently to achieve a warm or cool.

- **Standard**
- **Cool:** Increases blue tint
- **Warm:** Increases red tint

Noise Reduction

Press **OK** button or **▶** button to enter, then press **▲/▼** button to select Off, Low, Middle, High. (Only available in ATV/DTV mode)

Reset

Press **OK** button or **▶** button to enter, then choose **OK** to reset the value to factory setting.

HDMI Mode

Resolution	Vertical Frequency (Hz)	Aspect Ratio

Sound Menu

Allows you to select an audio-enhancement technique.

1. Press the **Menu** button and then press the **▲▼** buttons to select the **SOUND** menu.
2. Press the **OK** or **▶** buttons and then press the **▲▼** buttons to select the following sound options and then press the **OK** button.

Sound Mode Press the **▲▼** buttons to select an audio-enhancement technique: Standard / Movie / Music / Speech / User and then press the **OK** button to confirm.

Alternative

You may press the **Sound** button once and then press the **◀▶** buttons to select the sound mode.

Bass Press the **◀▶** buttons to control the relative intensity of lower-pitched sounds. (for user mode)

Treble Press the **◀▶** buttons to control the relative intensity of higher pitched sounds. (for user mode)

EQ Press **OK** or **▶** button to enter sub-menu and press **▲ / ▼** button to select. EQ100HZ / EQ300HZ / EQ1KHZ / EQ3KHZ / EQ8KHZ (for user mode)

Balance Press the **◀▶** buttons to adjust the relative volume of the speakers in a multiple speaker system.

Surround Press the **▲▼** button to select ON/OFF.

AVL Press **▲ / ▼** button to select ON or OFF. to control the volume automatically.

SPDIF Press **▲ / ▼** button to select Bitstream / Off / PCM.

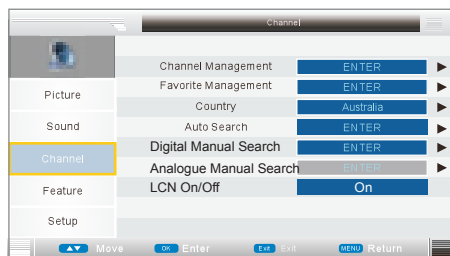

Reset Press **OK** button to enter sub-menu. select **OK** to reset audio to factory setting.

3. Press the **Menu** button to return to the previous menu. Press the **Exit** button to exit the menu.

Channel Menu(ATV/DTV)

Allows you to set up a variety of channel options.

1. Press the **Menu** button and then press the **▲▼** buttons to select the **CHANNEL** menu.
2. Press the **OK** or **▶** buttons and then press the **▲▼** buttons to select the following channel options and then press the **OK** button.

Channel Management

To manage (Delete / Lock / Skip) all channels.

1. Press the **▲▼** buttons to **Channel Management** then press the **OK** button to confirm.
2. A channel management screen will pop up, Press the **▲▼** buttons to select the channel you want to edit.

a. Delete

Press the **GREEN** button to delete the selected channel.

b. Lock

Press the **RED** button to lock your selected channel (The ticked Channels will only be locked when the LOCK option in the FEATURE menu is set to ON)

c. Skip

Press the **YELLOW** button to select the channels that you want to skip when you are selecting channels. Press the **YELLOW** button again to undo it.

d. Move (Only available in ATV)

Press the **BLUE** button and then press the **◀▶** buttons to move to the selected position. Press the **BLUE** button or the **OK** button to confirm.

3. Press the **Menu** button to return back to the main menu.
4. Press the **Exit** button to exit the menu.

Favorite Management

To manage (Add / Delete) favorite channels.

1. Press the **▲▼** buttons to **Favorite Management** then press the **OK** button to confirm.
2. A favorite management screen will pop up.
3. Press the **◀▶** buttons to select the channels to be added to your favorite lists. press the **RED** button to add to FAVlist 1. **GREEN** button FAV list 2. **YELLOW** button FAV list 3 or **BLUE** button for FAV list 4.
4. Press the **Menu** button to return back to the main menu.
5. Press the **Exit** button to exit the menu.

Country

Press the **▲▼** buttons to select the country and then press the **OK** button to confirm.

No sound when connecting HDMI

- Check if the input source is **HDMI**.

Audio noise

- Keep the RF coaxial cable away from the other connected cables.

Password

- Select the **Change Pin Code** setting in the **FEATURE** menu, then enter the following master password "**8888**". The master password clears your previous password and allows you to enter a new password.

Lost Password

There is a problem in PC mode.

The signal is out of range (Invalid format)

- Adjust the resolution, horizontal frequency, or vertical frequency.

Vertical bar or stripe on background & Horizontal Noise & Incorrect position

- Use Auto configure or adjust clock, phase, or H/V position.

Screen colour is unstable or single colour

- Check the signal cable.
- Reinstall the PC video card.

FAQs (Frequently Asked Questions)

Why have I lost some / all of my channels?

- It happens sometimes, if you have a weak signal. Usually it just means you'll need to rescan your digital box or TV. Don't worry, it's easy to do. And once you've done it, you should get all the channels available to you. If problems persist you may need to get your aerial checked. Talk to your retailer or contact your local aerial installer.

Why do I get 'blocking' on my digital picture?

- In most cases, blocking is caused by a reception problem – either the signal is too weak or there is some kind of interference. Talk to your retailer or contact your local aerial installer.
- Blocking can also be caused by a digital signal that is too strong. If you are still experiencing blocking and the signal is strong, consult your local aerial installer for advice.

Can I use a portable set-top aerial?

- Some, but only a few, homes may be able to use a set top aerial. However, for a much better reception, we strongly recommend that you use a rooftop aerial.
- If you do not have access to a rooftop aerial – for example, if you rent a flat and the aerial is the responsibility of your landlord, or if you're using a second TV in the bedroom and don't want the hassle and expense of using extension cables, a set – top aerial may be your only option.

What type of aerial do I need?

- If you are installing a new aerial, we recommend a wideband rooftop aerial rather than a loft aerial. Loft aerials generally receive a weaker digital signal and are more likely to get interference from other electrical devices in the home. We suggest you have an aerial survey done before getting an aerial upgrade.
- Talk to your retailer or contact your local aerial installer.

TV cannot be switched on

- Check that the TV is connected to the mains supply
- Make sure all connected AV devices are switched off before switching on your TV.

The remote control does not work

- Check to see if there are any objects between the TV and the remote control causing an obstruction. Ensure that you are pointing the remote control directly at the TV.
- Ensure that the batteries are installed with the correct polarity (+ to +, - to -).

3. Do not expose the disc to direct sunlight or heating sources, store discs in cabinet vertically, and in dry condition.

Prevent exposure to:

Direct sunlight
Heat or exhaust from a heating device
Extreme humidity

Clean the disc surface with a soft, dry cleaning cloth, wipe the disc surface gently and radically from center toward the outer edge.

Do not apply thinner, alcohol, chemical solvent, or sprays when cleaning. such cleaning fluids will permanently damage the disc surface.

Caution:

This unit is a class 1 laser product. However this unit uses a visible laser beam which could cause hazardous radiation exposure if directed. Be sure to operate the player correctly as instructed.

Maintenance

Careful and regular cleaning can prolong the life of your TV.

Be sure to Disconnect the mains cable from the mains socket before any cleaning.

1. Use a soft dry cloth to wipe away the dust from the screen and surfaces.
2. If the surfaces are extremely dirty, clean the TV with a cloth which has been dipped in a weak soapy water. Wring the cloth until it is almost dry, then use it to wipe the TV.
3. Ensure there is no excess water on the screen. Allow any water or dampness to evaporate before switching the TV on.

Never use alcohol, benzene, paint-thinner, cleaning fluid or other chemicals.
Do not use compressed air to remove dust.

Hints and Tips

The following table contains various hints and tips to get the best performance from your TV.

The TV does not operate properly.

The TV does not respond when pressing any buttons

- The TV may freeze up during use. Disconnect the mains cable from the mains socket for a few minutes. Reconnect the mains cable and try to operate it again as usual.

Disc Care

About Disc Terms

Title

Generally, pictures or music compressed on a DVD are divided into several sections, "title".

Chapter

The smaller section unit of picture or music in a DVD under the title, usually one title is comprised of one or more chapters and each of them is numbered for easy searching, but some discs may not have a recording chapter.

Track

A segment of picture or music on a CD, each track is numbered for searching.

Care of Disc

Video disc contains high-density compressed data that needs proper handling.

1. Hold the disc with fingers by outer edge and /or the center spindle hole. Do not touch the discs surface
2. Do not bend or press the disc.

Clock

Allows you to adjust timer zone, sleep timer, auto standby, OSD timer and summer time.
