This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

WARNING

1. Read carefully and understand all **ASSEMBLY AND OPERATION INSTRUCTIONS** before operating.
2. Failure to follow the safety rules and other basic safety precautions may result in serious personal injury.

GENERAL SAFETY RULES

1. This type of fishing magnet has an extremely strong magnet force. Please don't put fishing magnet near any item that is in iron material .
2. Please put the fishing magnets far away from one another to avoid sticking together and making it difficult to separate .
3. Please be careful of your hands whenever handling the fishing magnet so as not to be caught when it stick to items .
4. Children and minors are not allowed to use this product to avoid causing personal injury.
5. The safety precautions and instructions given in this manual are unable to cover in detail all the conditions and situations that may arise.
6. The operator and/or user must use common sense and caution when operating the product especially for any matters that are not referred in the above

7	User Manual	1

OPERATING INSTRUCTION

Installation Preparation:

1. Please prepare a mat and you need to spread out all the accessories.
2. Please open all the boxes to check that the accessories are complete and in good condition.

INSTALLATION

Step1: Put the gasket on the eye bolt, apply the thread locker, and then screw on the magnet, as shown below.

Note: Depending on the use, only an eye bolt is needed at a time.

Step2: Lock the safety buckle on the rope to the eye bolt.

Step3:Put on gloves and put the fishing magnet into water slowly, and at the same time, hold rope tightly by hand.

Step4: Then you may enjoy your fishing.

Note:

- 1) If the hook is used, the operation method is the same as above.
- 2) Do not exceed the Pulling Force of the magnet. Otherwise the magnet will be damaged .

MAINTENANCE

1. After using the fishing magnet, clean it with a dry towel and lay it under sunshine to ensure it is dry completely .Then , put it back into the case in dry cool environment.
2. Dry the rope. Put them back in the case,too.
3. Each time before using the fishing magnet, please check whether the eye bolt on the fishing magnet is loose or not. Please apply the thread locker if it is loose. Make sure the rope is in good condition to guarantee your safe fishing journey.
