

Bluetooth Remote Control for music player of Phone/Pad/PC

Model: Z1 DriveButton

Introduction: This Bluetooth remote control enables hands-free operation of your phone's multimedia functions and answer calls while driving or riding.

Core Advantage: The remote works simultaneously with other Bluetooth audio devices (headsets, speakers, car stereos, motorcycle Bluetooth helmets). Simply connect your phone or Pad, Computer to both the **Z1 DriveButton** and your audio device to unlock full remote control capabilities.

Key Functions

The remote features 5 dedicated buttons for intuitive one-hand operation:

1. Play/Pause/Call Button ()

Single Click: Answer/end a call | Play/pause music

Long Press (2s): Activate phone voice assistant (Apple Siri)

2. Volume Up Button (VOL+)

Single Click: Increase volume by 1 level

Long Press: Continuously increase volume

3. Volume Down Button (VOL-)

Single Click: Decrease volume by 1 level

Long Press: Continuously decrease volume

4. Previous Song Button ()

Single Click: Switch to the previous track

5. Next Song Button ()

- **Single Click:** Switch to the next track
-

Step-by-Step Usage

1. Mount the Remote

Secure the device using the included watchband strap:

- Cars: Attach to the steering wheel
- Bikes/motorcycles: Attach to the handlebars
- Other Scenarios: You can place the controller freely on a desktop or hold it in your hand to control and operate your phone.

2. Power On & Enter Pairing Mode

Press and hold the **Play/Pause button** for 3 seconds until the blue indicator light flashes rapidly.

3. Bluetooth Connection

- Open your phone's **Settings > Bluetooth**
- Turn on Bluetooth and select **Z1 DriveButton**

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radiofrequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
