

UNIVERSAL LID

The **Modern Innovations** Universal Lid can fit 6", 7", and 8" pots and pans. Keep your kitchen cabinet nice and tidy with these universal lids. Designed with a silicone rim, stay-cool handle, and a crystal clear tempered glass top.

Cleaning & Care

Although our universal lid is dishwasher safe, we recommend hand-washing to keep it like new! Once cooled, wash your lid with hot water, mild dish detergent, and a non-abrasive sponge. Dry with a non-lint cloth or paper towel.

- For stubborn sticky spots rub gently with baking soda
- Remove the knob to get any grease/food collected around the handle
- **Never** use abrasive cleaners or scrubbers - this can cause silicone to flake

Warning: Sudden change from hot to cold can cause glass to shatter. Make sure lid cools completely before placing in the fridge or freezer.

Thank You for choosing Modern Innovations!

We hope you enjoy your Universal Lid.
