PACKAGE CONTENTS

Place your compatible smartphone on the power bank's magnetic charging area. It will snap into place and begin charging automatically.

If charging does not start, press the power button once. The LED screen will show the charging status.

PACKAGE CONTENTS

Connect your device to the USB-C port using the included Type-C cable, Press the power button if necessary, Charging starts immediately.

You can charge the power bank and your phone at the same time. Simply connect the power bank to a wall charger via USB-C, and place your phone on the wireless charger or connect it with a cable.

SAFETY WARNINGS

— Do not disassemble, puncture, crush, or expose to fire or high temperatures.

— If you notice deformation, overheating, or a strange smell, discontinue use and dispose of the product properly.

— Do not drop or strike the power bank. Internal damage may not be visible.

— Do not attempt to repair or modify the device.

— Use only the supplied cable or certified accessories.

— Keep out of reach of children.

IMPORTANT TIPS

— Use a certified charger (5V/9V) for best performance.

— Avoid overcharging – unplug the power bank once fully charged.

— Do not charge under pillows, blankets, or near heat sources.

— Keep away from water, oil, and other liquids.

— Store in a cool, dry place when not in use.

— If not used for a long time, recharge every 3 months to maintain battery health.

— Stop using immediately if the battery becomes swollen, overheats, or emits an odor.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
