Product Description

02

Product Features

1. Fits all makes of strollers.
2. Safe to use from birth onwards.
3. Quiet motor with adjustable speed.
4. USB Rechargeable with long battery life.
5. Built-in multiple white noises
6. It can be linked to Bluetooth (SR10) to play music

How-to instructions

03

1. Power On/Off:

Turn the top knob switch clockwise until you hear a "click" sound to power on (green indicator light). After turning on, before the arrow rotates to the vibration icon, it enters white noise playback mode; when the arrow turns to the vibration icon, the main unit starts shaking.

To power off, rotate the knob to the lowest position. A "click" sound will indicate shutdown, and the indicator light will turn off.

2. Installation:

When in use, connect the fixture to the main unit, adjust the tightness of the fixing piece freely with the knob, and secure it to the horizontal bar of the baby stroller.

3. Song Playback:

Start with the knob at the minimum setting (default: built-in song mode).

Short-press the play/pause button to start or pause playback.

4. Volume & Track Control:

Short-press the forward/backward buttons to increase/decrease volume.

Press and hold the forward/backward button to switch to the previous/next track.

5. Bluetooth Mode:

Hold the play/pause button to activate Bluetooth pairing (blue light flashes).

Once paired, the blue light stays solid, indicating Bluetooth playback mode.

6. Timer mode:

The device will automatically turn off 45 minutes after being powered on

7. Shutdown:

Turning off the top knob switch in any operating state will shut down the device.

How it works

04

① Fit bracket

② Install

③ Lock-in

④ Turn on

⑤ Adjust speed

⑥ Relax

3. Retain all packaging for future reference.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
