

Controlling the Device with Your Voice

- 1 Open Govee Home App, then tap the device icon to enter details page.
- 2 Tap the settings icon in the top right corner.
- 3 Select "User Guide" and follow the on-screen instructions to control the device by using your voice.

Troubleshooting

- 1 The strip light does not work/is malfunctioning.
 - Check if the adapter used is the one provided.
 - Power the strip light off then on. Make sure the adapter and the control box have been powered on.
 - Long press and hold the power button on the control box and quickly press the middle button four times to restore factory settings.
- 2 The strip light does not display the full selected color./Some light beads do not light up.
 - Please contact Govee Support Team.

3 Cannot connect to Govee Home App.

- Do not skip Bluetooth connection in the app.
- Ensure Bluetooth on your smartphone has been turned on.
- Your smartphone may be incompatible with Govee Home App. Try using a different smartphone.
- Power the strip light and turn your smartphone's Bluetooth off and on before trying again.
- Please make sure your smartphone is within 1 m/3.28ft of the strip light when connecting.
- Clear any obstructions that are between the strip light and your smartphone.

4 Cannot connect to Wi-Fi.

- Do not skip the Wi-Fi connecting steps in the app.
- 5GHz network is not supported. Please set the router to 2.4GHz and then reset it.
- Connect your smartphone to Wi-Fi and check whether the network works well.
- Make sure that you have entered the correct Wi-Fi name and password.
- Change your Wi-Fi password to a brief one. 8 numbers and letters are suggested.
- Connect your smartphone hotspot to the strip light and check whether the router works with the strip light.

5 Cannot connect to Alexa.

- Unplug every connective part of the strip light then firmly reconnect them.
- Reset your smartphone Wi-Fi.
- Unplug the adapter port then re-plug it.

FCC and ISCED Canada Statement

This device complies with Part 15 of the FCC Rules and Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
(1) l'appareil n' doit pas produire de brouillage, et
(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

FCC and IC Radiation Exposure Statement

This equipment complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Lors de l'utilisation du produit, maintenez une distance de 20 cm du corps afin de vous conformer aux exigences en matière d'exposition RF.

This Class B digital apparatus complies with Canadian ICES-005.

Cet appareil numérique de la classe B est conforme à la norme NMB-005 du Canada.

For ambiance lighting only. Not for illumination.
Do not connect the rope light to the supply while it is in the packing or wound onto a reel;

Do not use the rope light when covered or recessed into a surface;

Do not open or cut the rope light.
To reduce the risk of strangulation, the flexible wiring connected to this luminaire shall be effectively fixed to the wall if the wiring is within arm's reach.

Seulement pour un éclairage d'ambiance. Pas pour l'éclairage quotidien.
Ne connectez pas le corde lumineux à l'alimentation lorsqu'il est dans l'emballage ou enroulé sur un enrouleur;

N'utilisez pas le corde lumineux lorsqu'il est couvert ou encastré dans une surface;

Ne pas ouvrir ou couper la corde lumineuse.
Pour réduire le risque de strangulation, le câblage flexible connecté à ce luminaire doit être fixé solidement au mur si le câblage est à portée de main.

Govee TV Backlight (For 40-50 inch TVs)

Safety Instructions

- Read and follow all the safety instructions:
- Use the product with the provided power adapter only.
 - Be cautious of static electricity during installation and usage. Keep the product away from sharp objects or strong corrosive chemicals.
 - Remove nails, metal, or other conductive objects from the installation surface before attaching the strip light, as it may cause short-circuiting.
 - Do not allow children to install the strip light alone.
 - When bending the strip light during installation, avoid folding the LED components as it may affect the product's lifespan.
 - Avoid installing the strip light near potentially dangerous sources (e.g., candles, liquid-filled objects).
 - Unroll the strip light before powering on.
 - Please turn off the power and unplug the adapter when the strip light will not be used for a long time.
 - The recommended working temperature is between 0 to 40 °C.
 - The storage temperature should be between -20 to 60 °C.

Introduction

Thanks for choosing Govee TV Backlight. The 2.4m LED Strip Light (2*0.8m+2*0.4m) fits 40-50 inch TVs, which is embedded with Govee's cutting-edge RGBIC technology so that each segment can be adjusted independently, bringing a more immersive watching experience. It can be controlled by Govee Home App and voice assistants such as Alexa and Google Assistant.
