

Federal Communications Commission (FCC) Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by

turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by the party responsible for compliance may void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to

operate the equipment.

RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.

FCC ID: 2ADH6-1410021

LIMITED LIFETIME WARRANTY

E-filliate warrants that the product is free from defects in materials and workmanship, provided that the product is utilized in accordance with E-filliate's instructions.

**2-IN-1 WIRELESS CHARGER/
RETRACTABLE TYPE C CABLE**

INSTRUCTION MANUAL

141 0021 TD2

2-IN-1 WIRELESS CHARGER/ RETRACTABLE TYPE C CABLE

Instruction Manual

⚠ WARNING: BEFORE USING THE PRODUCT, PLEASE READ THIS INSTRUCTION MANUAL CAREFULLY AND KEEP IT FOR FUTURE REFERENCE.

Package Contents

- 2-in-1 Wireless Charger/Retractable Type C Cable
- Manual

Thank you for purchasing the **2-in-1 Wireless Charger/Retractable Type C Cable**. This versatile charger/cable provides convenient and reliable charging at home or on the go.

COMPONENTS AT A GLANCE

- 1 Type C Charging Cable
- 2 Smartphones/Smartwatches/Earbuds Wireless Charging Area

For Type C Charging Cable Use:

- Plug in one Type C connector to a power source and the other end into the device you want to charge

For Wireless Charger Use:

- Plug one Type C connector into a power source

Supported Devices

1. Smartphone: iPhone 12/13/14/15/16/17 series and other Qi phones.
2. Smartwatch: Apple Watch
3. Earphones

Product Features

- Input supports DC, QC2.0, QC3.0, PD2.0, PD3.0 protocols
- Output supports Apple Watch/2.5W, mobile phone BPP/5W
- Metal foreign object detection during standby (static FOD), metal foreign object detection during operation (dynamic FOD)
- OTP over-temperature protection, OCP over-current protection, OVP over-voltage protection, UVP under-voltage protection
- Uses a single coil to charge mobile phones, headphones, and Apple Watch
- The Apple Watch's performance is not affected by system upgrades (this product has an upgrade-free chip)

Product Specification

- Model No.: 141 0021 TD2
- Length: 1.15 meters
- Material: PC + ABS + PC Cover
- Power: Type C to Type C Output 60W (Max)
- Type C: Apple Watch: 2.5W
- Wireless Charging MagSafe: 5W
- Type C to Type C + Apple Watch 58W (Max) + 2W
- Input working voltage: 5V/9V/12V/15V/20V
- Standby power consumption: 0.13W-0.44W
- Wireless charging output power: Watch/Earphone: 2.5W, Phone: 5W, Type-C Output: 60W, Conversion Efficiency: Approximately 80%
- Charging distance: Watch: 0.6-1.2mm, Phone: 1-5mm
- Wireless charging operating frequency: Apple Watch: 325kHz, Phone/Headphone: 110-205kHz
