

DBDD: User Manual

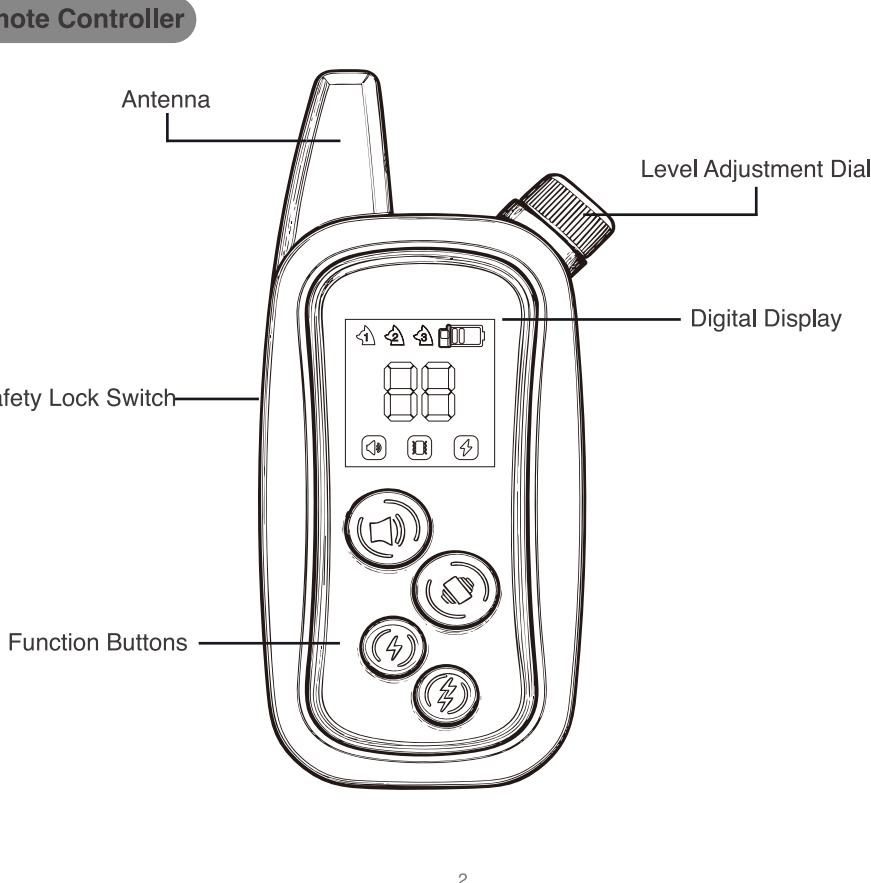

Smart Dog Training Collar
Train smarter, safer, and more effectively

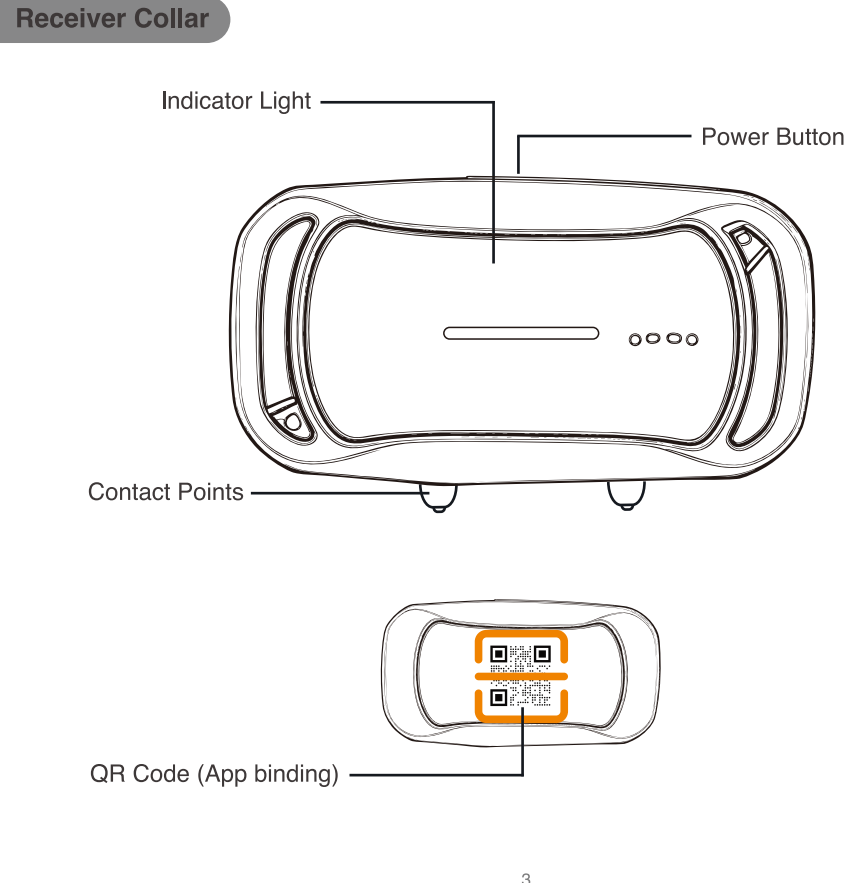

What's Included

Product Overview

Product Overview

Key Features

- Dual Control: Remote & App
- Training Modes: Tone, Vibration, Static
- Adjustable Levels for Precision Training
- Training Records & Visual Charts (App)
- Up to 800 m Control Range
- Long Battery Life (Up to 45 Days Standby)
- IP67 / IP54 Waterproof Protection

Training Modes

- Tone**
 - Gentle sound alert for commands
 - Adjustable levels (1–8)
- Vibration**
 - Adjustable levels (1–32)
 - Suitable for most training scenarios
- Static Stimulation**
 - Adjustable levels (1–99)
 - Uses short pulse stimulation ($\leq 0.5s$)
 - Designed to avoid discomfort when used properly
 - Always start from the lowest level and adjust gradually.*

Before You Start

- Fully charge both remote and receiver
- Ensure the collar fits comfortably (one-finger space)
- Make sure contact points touch the skin
- Start with the lowest training level
- The device is pre-paired and ready to use

How to Use

- Step 1: Power On**
 - Remote: Unlock and activate
 - Receiver: Short press to power on
- Step 2: Unlock Remote**
 - Slide up to unlock
 - Screen displays channel, level, and battery
 - Green light flashes briefly to indicate active status
- Step 3: Choose Mode & Adjust Level**
 - Select Tone / Vibration / Static
 - Adjust intensity using the control dial
- Step 4: Start Training**
 - Press button to activate
 - Long press enables continuous mode (up to 15 seconds)

- Lost or stolen units
- Unauthorized repairs or modifications

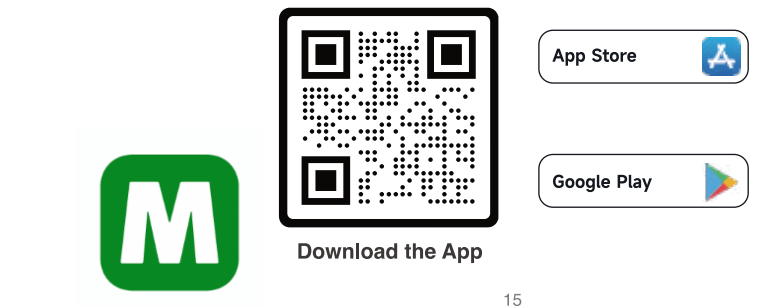

Additional Information

For products purchased within 30 days from an authorized dealer, please contact the dealer directly for replacement or refund.

For products beyond 30 days from the date of purchase, please contact our team for repair service.

For Detailed Instructions

- Access full training controls and settings
- View detailed training records and charts
- Get personalized suggestions from the Pet Assistant
- Update firmware and manage your device

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

Warranty

1-Year Limited Warranty

The original purchaser of this product is provided with a one (1) year limited warranty from the date of purchase.

During the first year, coverage includes both parts and labor for warranty repair services. After the first year, a limited lifetime warranty applies to parts only. Labor costs and accessories are not covered beyond the initial one-year period.

Accessories such as straps and batteries are covered for one year only.

The customer is responsible for:

- Shipping costs
- Replacement of accessories after one year
- Labor fees for out-of-warranty repairs

Not Covered Under Warranty

- This warranty does not apply to:
- Products purchased secondhand or from unauthorized sellers
 - Issues related to misuse, abuse, or improper maintenance
 - Damage caused by the dog or the user

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

Caution

Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

Note

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Information

Technical Specifications

Designed in the USA.
Made in China.
All trademarks are the property of their respective owners.

Waterproof Rating	- Remote Controller (Remote): IP54 - Receiver Collar (Receiver): IP67
Battery Capacity	- Remote: 300 mAh - Receiver: 500 mAh
Charging Time (Remote & Receiver)	Approx. 2 Hours
Standby Time	- Remote: Up to 45 Days - Receiver: Up to 35 Days
Control Range	- Up to 800 m (Open Area) - Up to 500 m (Urban Environment)

FCC Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

Q&A

Q1: My dog doesn't seem to react. Is something wrong?

Not necessarily! Every dog is different. Start from a low level and gradually increase until you find the level your dog responds to. Also double-check that the contact points are touching the skin properly.

Q2: Is this safe for my dog?

Yes—when used correctly, it's designed to be safe and humane. We recommend starting with vibration or tone first, and only using static stimulation when needed and at appropriate levels.

Q3: I can't connect the app. What should I do?

This can happen sometimes—try turning Bluetooth on and off, restarting the app, or reconnecting the device. If it still doesn't work, restarting your phone usually does the trick.

Q4: How tight should the collar be?

It should be snug but not too tight. A good rule of thumb is that you should be able to slide one finger between the collar and your dog's neck.

Q5: My dog doesn't react much

That's completely normal at first. Try increasing the level gradually and ensure the contact points are touching the skin properly.

Warning: On-Leash Training Safety

During training, keep your dog on a strong leash. The leash should be long enough to allow movement, but short enough to prevent your dog from reaching unsafe areas such as roads.

Make sure you are physically able to control and restrain your dog if necessary.

Risk of Skin Irritation or Injury

Prolonged use or excessive tightness of the collar may cause skin irritation, redness, or pressure sores.

To reduce risk:

- Do not leave the collar on for more than 8 hours per day
- Reposition the collar every 1–2 hours when possible
- Ensure a proper and comfortable fit

Never attach a leash directly to the electronic collar, as this may cause excessive pressure on the contact points.

If you notice redness, irritation, or sores, stop using the product until the skin has fully healed. If symptoms persist for more than 48 hours, consult your veterinarian.

General Safety

- This product is not a toy. Keep out of reach of children.
- For use only on healthy dogs over 6 months old.

Charging & Battery

- Charging Time: Approx. 2 hours
- Remote Standby: Up to 45 days
- Receiver Standby: Up to 35 days

Charging Indicators

- Charging: Red breathing light
- Fully Charged: Solid green light

Always close the waterproof cover after charging.

Safety Guidelines

This symbol indicates important safety information. Please read and follow all safety instructions to avoid injury.

Warning: Not for Aggressive Dogs

Do not use this product on dogs that are aggressive or prone to aggressive behavior. Aggressive dogs can cause serious injury to people and other animals.

If you are unsure whether this product is suitable for your dog, please consult your veterinarian or a certified trainer.

App Control & Smart Features

Control training remotely via App

Adjust levels and modes in real time

View training records and visual charts

Sync battery status and operation history

Built-in Pet Assistant for guidance

Firmware updates via Bluetooth
