

01/Product Function Overview

1. This product is specifically designed for smartphones, aiming to make full use of their excellent photography capabilities and turn them into a photography aid that closely replicates the experience of using a camera.
2. This product is compatible with iPhone 11 and above (minimum system requirement: iOS 15.4), as well as commonly available Android smartphones on the market.
3. The product features a magnetic remote Bluetooth module that enables a wireless control distance of up to 10 meters. The Bluetooth module is equipped with a built-in rechargeable lithium battery and uses a Type-C charging port for convenient and fast recharging.
4. The product incorporates an ergonomic design with an enlarged grip size, enhancing handling comfort so that you can engage in photographic creation in better form.
5. The product offers two optional accessory ecosystems: a phone clamp and a fill light. Users who require these accessories may purchase them separately.

Precautions:

- To fully experience the Bluetooth controller, please first read Section 4 of the user manual and complete the relevant phone settings.
- Since the main body of this product uses a magnetic connection method, please do not use the product during intense physical activity. If you need to shoot while moving, please purchase the phone clamp expansion accessory separately.

02/Product Specifications

Model: T1
Dimensions: 120 × 49.5 × 99.5 mm
4.72" × 1.95" × 3.92"
Weight: 173g / 0.38 lb
Bluetooth Name: Amazear T1
Bluetooth Range: 10M / 33 feet

Bluetooth Module Battery Capacity: 100mAh
Bluetooth Module Battery Life: ≈30E
Charging Port: Type-C
Charging Power: 0.5W
Charging Time: 1.5~1.8H

03/Packing List

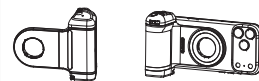

04/Product Usage Instructions

Indicator Light Status Description

1. Low battery: The red indicator light flashes 5 times when powering on, and flashes 3 times during use.
2. Charging: The red indicator light remains steadily on.
3. Fully charged: The red indicator light turns off.
4. Bluetooth waiting to pair: The green indicator light flashes continuously.

Phone Installation Instructions

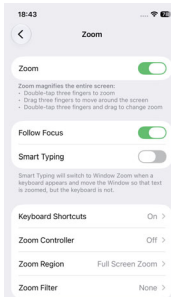

1. Please distinguish the front and back sides of the photography assistant. As shown in Figure 1, the side facing you is the magnetic surface for attaching to the phone.
2. Please pay attention to the direction of your phone's camera. Attach and secure your phone in the orientation shown in Figure 2.

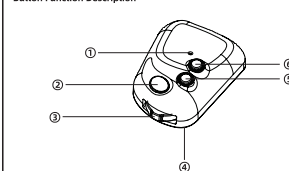

Bluetooth Connection Instructions

1. Please turn on the product first. When powered on, the green indicator light will flash continuously, indicating that Bluetooth is waiting to pair.
2. Turn on your phone's Bluetooth, search for and tap "Amazear_Z3" to pair. After a successful connection, the indicator light will turn off.
3. For iPhone: Go to Settings → Accessibility → Zoom → Turn on Zoom.

(When Zoom is enabled, the screen will be magnified. Triple-tap with three fingers to restore the normal view.)

Button Function Description

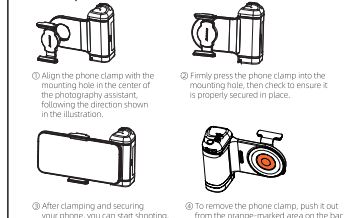

- ① Indicator Light
- ② Shutter/Record Button
- ③ Focus Dial: Adjust focus to zoom in and out.
- ④ Type-C Charging Port (bottom)
- ⑤ Multi-Function Button 1: Long press: Power on/off. Single press: Switch shooting mode to the left. Double press: Switch shooting mode to the right.
- ⑥ Multi-Function Button 2: Single press: Switch between front and rear cameras. Double press: Wake up the camera from screen-off state. (If you wish to use the screen-off camera wake-up function, please disable the "Double-click Side Button for Wallet" feature. To disable it, go to: Settings → Apple Pay → Apple Pay Default Settings → Double-Click Side Button → Turn Off)

05 / Optional Accessory Usage Demonstration

(The following two accessories are optional. If you need them, they can be purchased separately.)

Phone Clamp

Fill Light

Email: amazear.services@outlook.com

We will respond within 24 hours and provide a solution.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC RF Exposure Warning Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment can be used in portable exposure conditions.
