3

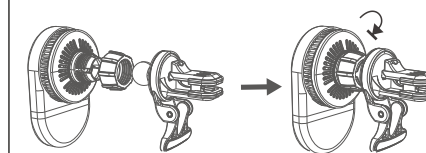

06 BUTTON FUNCTIONS

- Single Click:**
Turn On/Off the Fan & Cooling TEC
- Double Click:**
Turn On/Off the Wireless Charging function.
- Long Press (3s):**
Turn Off/On BOTH wireless charging and cooling.

Note: The white light will flash three times as a reminder when the long press operation is performed.

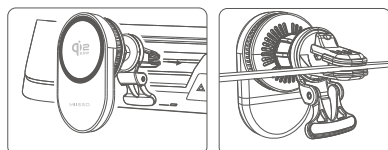

07 HOW TO USE

1. Assemble – Snap the wireless charger onto the ball joint, then tighten the nut.

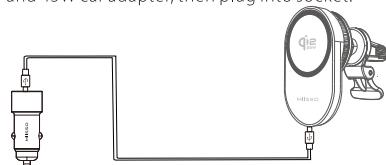

4

2. Install the vent clip – Clip it firmly onto a car air vent.

3. Connect power – Connect USB-C cable to charger and 45W car adapter, then plug into socket.

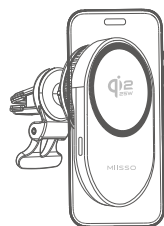

4. Power on – White light stays on for 10 seconds, then turns off. Charger is ready.

5

5. Attach your phone – Simply place a MagSafe-compatible phone against the charger. Charging starts automatically.

**08 Q&A**

Issue	Possible	Solution
not charging	Poor alignment	Align the phone with the center
	No power	Check the power connection
charging slow	Incompatible adapter	Use PD adapter (>=45W)
Overheating	High ambient temperature	Use in cooler environment

6

09 FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular

7

installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

8

10 SAFETY WARNINGS

- Do not expose to liquids or moisture.
- Do not disassemble, modify, or repair the product.
- Do not place metal objects, cards, keys, or coins between the phone and charger.
- Keep away from water, fire, and extreme heat.
- Keep away from magnetic cards, pacemakers, and medical devices.
- Use in temperatures between 0°C and 35°C.
- Use only with a certified power source.
- Keep out of reach of children.
- Keep the product clean for better performance.

Thank you for choosing our product. If the problem persists, please contact our customer support.
