FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference. (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- (1) Reorient or relocate the receiving antenna.
- (2) Increase the separation between the equipment and receiver.
- (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- (4) Consult the dealer or an experienced radio / TV technician for help.

Important Safety Information

  Please read all instructions before using this product.

- This product is intended for use with IT equipment only.
- The temperature must not exceed 95°F (35°C) during use.
- Do not expose this product to temperatures exceeding 140°F (60°C).
- Disconnect the line voltage by unplugging the AC plug.
- In case of broken plugs, the product must be disposed of.
- To clean the product, use only a dry cloth or brush.
- The socket-outlet should be located close to the equipment and be readily accessible.
- The power supply is not intended to be repaired by service personnel in case of failure or component defect (the product can be disposed of).
- Keep out of reach of children. Adult supervision is required during use.

How to Use (For 3-Port Charger Only)

Power Output Overview

Charging Scenario	Port Usage	Maximum Output
Single-Port Charging	USB-C1 only	Up to 65W
	USB-C2 only	Up to 65W
	USB-A only	Up to 18W
Dual-Port Charging	USB-A + USB-C2	Share up to 15W total
	USB-C1 + USB-C2	USB-C1: up to 30W
		USB-C2: up to 20W
	USB-A + USB-C1	USB-C1: up to 30W
USB-A: up to 18W		
Triple-Port Charging	USB-C1 + USB-C2 + USB-A	USB-C1: up to 30W
		USB-C2 + USB-A: share up to 15W

-  Use with standard power outlets only. Ensure the outlet is secure to prevent loosening or falling out.
- Avoid loose or worn-out outlets, especially for wall outlets, to ensure stable charging and safety.
- Ports C and A can charge low-power devices simultaneously.
- For high-power devices such as MacBooks, please use a single port C.**
