# HAMMERHEAD DIVING SHARK

49.86MHz Remote control

PLEASE READ THIS INSTRUCTION MANUAL CAREFULLY BEFORE USE.

The materials, specifications, parts and packaging mentioned in this manual are for reference purposes only. We are not responsible for any changes made to this printed material, nor are we able to inform of any updates or changes. Please refer to our website: R3VOLT.COM for the latest on.

## Important safety information

Thank you for purchasing REVOLT products. To ensure that you operate the shark correctly, please read the following content. Please read the instruction manual carefully before first use and store it in a safe place for future reference.

### Safety information Not intended for use in salt water.

\*Please keep smaller sized accessories out of reach of children.  
Medium low temperature atmospheric environment  
Children should be supervised while driving vehicles and should remain vigilant  
The driver's (or coach's) gaze.

\*Do not charge non rechargeable batteries. When installing or replacing batteries, please ensure that Connect with the correct polarity. Do not mix old and new batteries or different types of batteries.

\*Do not short-circuit the battery terminals.

\*If you do not intend to use the shark for at least 10 days, please discharge the battery to 40% -50% (i.e. if the battery is fully charged) After charging, driving the shark for half of its total travel time can help extend battery life

\*You can only use the provided charging cable. Before cleaning, disconnect the charging cable from the shark. Regularly check the wires, sockets, casings, and other accessories of the charging cable to ensure that they are not damaged. Damaged. If there are any signs of damage, please stop using immediately until repaired.

\*After use, make sure the shark and remote control are turned off, and remove the battery from the remote control. The packaging and this manual contain important information and should be kept in a safe place for future reference.

### Warning!

- 1.The tail naturally moves when the toy is in the water. If the body and tail become detached, users can easily reattach them, and the shark will continue to swim as intended.
- 2.The tail only moves when the toy is submerged and played in water.
- 3.Water may enter the device during water play and should be dried thoroughly afterward.

### Repair and maintenance

- \*Clean the product regularly with a clean, soft cloth.
- \*Avoid exposing the product to direct sunlight or heat.
- \*Do not submerge the remote control, as this may damage the electrical components.

### About this product

#### Specifications

Remote controlled shark	
Weight	175g
Dimensions	34x14x10cm
Remote control range	20 meters
Charging time	about 60 mins
Operating time	about 10 mins
Battery	3.7V 500mAh rechargeable battery (included)

#### Remote control

Operating frequency	49.86MHz
Battery Requirements	2XAA 1.5V batteries (not included)

## OPERATING INSTRUCTIONS

Power Requirement ( Included)	
Shark	Controller
( Included ) Shark uses 3.7V lithium battery	( Not Included ) Controller use 2x1.5V AA batteries

Remote control distance: 10-12 meters  
Diving depth: Do not exceed 1.5 meters  
Charging time: 1-1.5 hours  
Playing on the water surface for 15-20 min  
Underwater play time 8-12 min

**USB**  
\*Using a USB charger Charging lithium batteries

## Warning!

\*This product must be assembled and used under the direct supervision of an adult.

\*This product contains small components that present a choking hazard if swallowed; this product is not suitable for children under 12 years of age.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the users authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not / installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

"This device complies with FCC radiation exposure limits set forth for general population(uncontrolled exposure).This device must not be collocated or operating in conjunction with any other antenna or transmitter."

Declaration of Conformity Inserts :  
"Hereby, GUANGDONG SYMA MODEL AIRCRAFT INDUSTRIAL CO.,LTD., declares that this drone is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU" A copy of the full DoC is attached.

FCC Statement:  
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) this device may not cause harmful interference, and  
(2) this device must accept any interference received, including interference that may cause undesired operation.  
changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.
