

FLOOR-STANDING SUSPENSION BOOM MIC STAND

QUICK GUIDE

PMKSH28

Materials:

- A. Pop filter: plastic and steel
- B. Shock mount: steel
- C. Recording mic stand: steel
- D. Adaptor: Aluminum w/ plastic knob
- E. Two poles: steel
- F. Iron base: steel

How to use:

1. Tighten the two poles into one pole (E), then screw the pole end to the iron base (F).
2. Screw the adaptor (D) to the iron base (E).
3. Unscrew the knob of the adaptor (D), then put the recording mic stand (C) bottom inside the hole of the adaptor (D).
4. Screw the shock mount (B) on the arm frame connection of the recording mic stand (C).
5. Adjust the recording mic stand (C) to desired height.
6. Screw the pop filter (A) on the right place of the recording mic stand (C).
7. Slide your microphone into the shock mount (B).

Accessories: Mic Holders
