

Instructions for CST-1A

Tip: How to choose the correct remote control?

Try to choose the remote control with the same appearance. The remote control with different appearance may not work!

1. Turn off the Power Switch on the car.
2. Remove the battery cover on the Remote Control and put in 2 AAA battery, the three LED indicators will flash.
3. Turn on the Power Switch on the car, when the LED indicators stop flashing and 2 of them are on, remote is properly connected.
4. Once remote has been synchronized, there is no need to go through this process again (unless you change the batteries, then repeat steps 1-3).
5. The Remote Control will enter a sleep mode if not used for a long time and the LED indicators will be off. Press any buttons to wake up the Remote Control, and it can be used normally.

Model Number: CST-1A

FCC ID: 2ARLM-CST-1A

Product name: REMOTE CONTROL

Model Number: CST-1A

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1)

This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING!

- 1.All batteries should be inserted in the correct polarity.
- 2.To avoid injury, please keep battery away from children.
- 3.Take out and properly deal with the dead battery. To avoid injury, please keep kids away from the battery.
- 4.The direct contact between the positive and negative terminals may result in fire or explosion. Avoid direct connect between the terminals.
