准儿翻译机5.0 说明书

Appearance

Appearance

Quick Start - - - - -

1. Power on/off and Sleep/Wake

- Power on: Press and hold the [Power Button] until the screen lights up.
- Power off: Press and hold the [Power button], then tap the "Shutdown" prompt on the screen.
- Sleep: When the device is powered on, press the [Power Button] to turn off the screen and enter sleep mode.
- Wake: When the device is in sleep mode, press the [Power Button] to light up the screen and resume use.

2. Network Connection

This device supports three network connection methods:

- Wi-Fi Connection: Go to Settings > WLAN in the menu to connect to Wi-Fi.
- Built-in 4G Network: Tap the [Global Internet] menu to redeem or purchase data for your destination country.
- Extended 4G Network (External SIM Card): Insert a SIM card, and the device will automatically connect to the Internet provided by the carrier. Data rates may apply according to the network operator.

Quick Start

(Note: When an extended 4G network and the built-in 4G network are both available, the extended 4G network takes precedence).

3. Online Translation

You may access the Online Translation in two ways:

- Go directly to the [Online Translation] menu.
- Press the [Translation Button].

Quick Start - - - - -

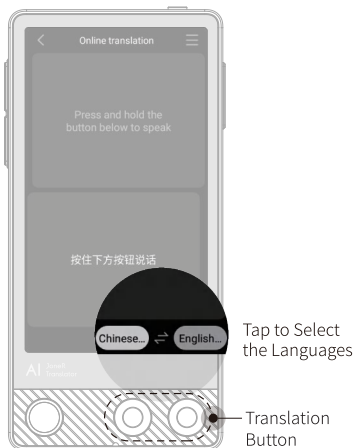

Select the Languages

- Select the source language: Tap the "Language Button" (left) on the screen and select the source language.
- Select the target language: Tap the "Language Button" (right) on the screen and select the target language.

Online Translation

- Press and hold the [Translate Button] of the source language (left) or target language (right), speak clearly, then release the button for instant translation.

4. Offline Translation

You may access the Offline Translation in two ways:

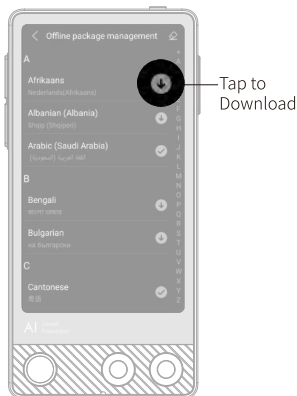

- Go directly to the [Offline Translation] menu.
- Press the [Translation Button] when no Internet connection is available.

Quick Start

Download offline language packs

- We recommend downloading language packs over Wi-Fi.

Note:

1. To avoid performance issues caused by limited storage, delete downloaded language packs when they are not currently needed.
2. Part of the languages in offline translation only support one-way translation.

Quick Start - - - - -

Select the Languages

- Select the source language: Tap the "Language Button" (left) on the screen and select the source language.
- Select the target language: Tap the "Language Button" (right) on the screen and select the target language.

Offline Translation

- Press and hold the [Translate Button] of the source language (left) or target language (right), speak clearly, then release the button for instant translation.

Quick Start

Quick Start

5. Photo Translation

You may access the Photo Translation in two ways:

- Tap the [Photo Translation] menu on the home screen.
- Press the [AI Photo Translation] button on the right side.

Quick Start

Select the Languages

- Select the source language: Tap the "Language Button" at the top-left of the screen and select the source language.
- Select the target language: Tap the "Language Button" at the top-right of the screen and select the target language.

Quick Start

Photo Translation

- Enter photo translation mode and aim at the text.
- Tap the "Shutter" on the screen to take a photo.
- Tap [✓] to start photo recognition and translation.

Shutter

Quick Start

6. Simultaneous Interpretation

- Language settings: Select the source/target languages on the Simultaneous Interpretation interface.
- Perform translation: Press and release the Translation Buttons of the corresponding languages, then speak according to the on-screen prompts. After you finish speaking, press any translation button.
- Please download offline packages in advance for simultaneous interpretation in the offline mode.

7. AI Voice Assistant

This function requires a network connection

You may access this feature in two ways:

- Tap the text box on the left to enter your questions.
- Press and hold the "Voice Input" on the right to speak your question.

Quick Start

8. More Features

To learn more about the JoneR Translator and explore all its features, try these:

1. The above technical details marked with "*" are based on the product's current functions and data and are only for reference. As the JoneR Translator undergoes continuous upgrades and improvements, the final specifications of the product you receive may vary.
2. The Scenic Spot Guide and Global Internet features are only available when the system language is set to Simplified Chinese.

Disclaimer - - - - -

Please read this User Manual carefully before using the product. (To view or download the complete manual, please visit the official JoneR website at <http://www.aibabel.com>.)

1. We assume no responsibility for the outcomes of any translation performed by this product.
2. It is recommended to use the device in a quiet environment. Please note:
 - Do not use the device in environments with extreme temperatures, high humidity, or flammable gases. Keep it away from heat sources such as ovens and electric heaters. Never expose it to fire.
 - This product is not waterproof. Do not submerge it in water or expose it to water spray.
 - Use only the original charging cable with 5V = 1A adapters. Incompatible accessories may cause hazards.
 - After charging is complete, disconnect the device from the charger and unplug the charger from the power outlet.

Warranty Service - - - - -

1. This product is covered by a one-year limited warranty.
2. During the warranty period, any malfunction occurring under normal use (as defined in the User Manual and verified by our authorized service personnel) will be repaired at no cost.
3. The following circumstances are not covered under the free warranty service:
 - Inability to provide a valid warranty card and proof of purchase.
 - Malfunctions or damage caused by misuse, improper operation, or unauthorized repairs.
 - Malfunctions or damage resulting from transportation, handling, or drops after purchase.
 - Malfunctions or damage caused by force majeure or other unforeseeable events beyond reasonable control.
 - Damage caused by using a power source or voltage other than those specified.

Warranty Service - - - - -

4. This warranty is provided in lieu of all other express or implied warranties, including but not limited to implied warranties of merchantability or fitness for a particular purpose. Under no circumstances, whether based on contract, tort (including negligence), or otherwise, shall the company be liable for any special, incidental, or consequential damages.
5. Beijing Babel Technology Co., Ltd. reserves the right of final interpretation regarding all terms and contents of this warranty service.

FAQ

1. Do not power off the device during a system update.
2. An active internet connection is required for use. Poor network conditions may result in slow translation response or failures. It is recommended to switch to another network.
3. Press and hold the "Translate" button until the speaking icon appears. Speak at a normal pace and release the button when finished.
4. To ensure clear recognition, keep the mic within 30 cm of your mouth.
5. Use standard pronunciation. Avoid interrupting the device while it is processing or speaking too fast, which may affect translation quality.
6. For optimal result, please use standard languages. Using dialects may reduce translation quality.
7. Try changing the expression and re-input when the translation result is not accurate.

FCC Statement

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device meets the government's requirements for exposure to radio waves.

The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies.

The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

The SAR limit of USA (FCC) is 1.6 W/kg averaged.

Device types: JoneR Translator 5.0 (FCC ID: 2ARVJ-PL26) has also been tested against this SAR limit.

SAR information can be viewed on line at <http://www.fcc.gov/oet/ea/fccid/>.

Please use the device FCC ID number for search.

This device was tested simulation typical Omm to body.

To maintain compliance with FCC RF exposure requirements, use accessories should maintain a separation distance between the user's bodies mentioned above, use accessories should not contain metallic components in its assembly, the use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.
