Bluetooth pairing nameAY-05

Bluetooth VersionV5.3

Bass unitφ16 oscillator

Frequency response range140 Hz ±20%

Battery Type3.7V/300mAh Lithium

Interior input powerDC5V/1A

Charging intervalCharge in 2 hours

Classification of waterproofIPX3

Product size70*32*24mm

Frequency range2.402GH - 2.480GHz

● Integrate battery replacement can pose an explosion risk; only batteries of the same type or equivalent type may be used for replacement.

● For products equipped with removable batteries, the batteries must be recycled or properly disposed of; for products equipped with non-removable batteries, disassembly is prohibited.

● Do not disassemble, impact, compress, or place the battery in fire. Do not expose the battery to conductive materials, liquids, fire, or high temperatures.

Do not allow metal objects to come into contact with the battery terminals.

● If the battery shows signs of swelling, leakage, discoloration, unusual odor, or any other abnormality, do not continue using it. Do not use the battery after it has been submerged in water.

● If a battery is used improperly, it may explode or leak, causing burns or other personal injuries; in the event of a battery leak, exercise caution and dispose of the battery immediately in accordance with local battery disposal laws and regulations.

● The shortwave radio frequency signals emitted by this wireless product may interfere with the normal operation of other electronic or medical devices. Please turn off this product in areas where its use is prohibited.

● Do not use this product inside medical facilities, on airplanes, at gas stations, near automatic doors, near automatic fire alarm systems or other automated control devices.

Elliptic singular ◐	Double click	Switch between Bluetooth and Memory modes
	Short press (during incoming call)	Reject calls (no call functionality)

Size of product

Names and concentrations of harmful substances in the product

Component Name	Component Name					
	(Pb)	(Hg)	(Cd)	Hazardous chromium (Cr(VI))	(PBB)	(PBDE)
Metal components:	X	○	○	○	○	○
wires and cables, circuit boards, assemblies:	○	○	○	○	○	○
molded parts	○	○	○	○	○	○

The form is prepared in accordance with the provisions of GB/T17646.

○ This indicates that the concentration of the hazardous substance in all homogeneous materials of the component is below the limit requirements specified in GB/T 26572.

X This indicates that the concentration of the hazardous substance in the homogeneous material of the component exceeds the limit requirements specified in GB/T 26572; certain products may contain batteries, and the labeling regarding the content of hazardous substances for such batteries shall be provided by the battery manufacturer.

Note: The environmental service life depends on normal product operating conditions, such as temperature and humidity.

Product Three-Warranty Service Card

Important Notice:

According to the national "Three Guarantees" service regulations, this card serves as the warranty service certificate for Anyang speaker products. By presenting this card along with a valid sales receipt, you are eligible for the state-mandated Three Guarantees service policy. Please keep this card safely and present it when requesting Three Guarantees services.

Product Return and Exchange Policy:

(1) If a performance defect occurs within 7 days from the date of sale, the consumer may choose to return the product, exchange it, or have it repaired.

(2) If a performance issue arises within 15 days from the date of sale, the consumer may choose to exchange the product or have it repaired.

Product Warranty Policy:

I. Warranty Period:

From the date of purchase, under normal use conditions, if the product has any quality issues, the entire device is covered by a one-year free warranty.

II. Warranty Scope:

From the date of purchase by the user (as evidenced by an invoice or valid sales receipt), should a malfunction occur during the warranty period and be diagnosed by an authorized service center or repair station of our company as resulting from a product defect arising from the product's inherent quality issues under normal usage conditions, a free warranty service shall be provided.

III. Exclusions:

(1) No warranty service card or valid sales documentation; or the production date is more than one year old;

(2) Where the Three-Warranty Service Card or sales receipt has been altered or defaced, or where the product information stated on the Three-Warranty Service Card or sales receipt does not match the actual product;

(3) Human-induced damage (e.g., unauthorized disassembly of the device, improper connection or usage, connection to a power supply with an inappropriate voltage, or failure to follow the instruction manual);

(4) Damage resulting from handling, falling or other accidental events, as well as damage caused by force majeure events such as natural disasters;

(5) If the product has been repaired or modified by a service provider or individual not authorized by the Company;

(6) Quality issues shall be limited to performance-related defects and shall not include users' subjective complaints regarding sound quality, timbre, or other aspects;

(7) The naturalization of consumable materials (e.g., casing), as well as wear and tear and consumption.

IV. Contact Information

If you encounter any issues during your use of the service, please call 15019168210 for technical support.

FCC WARNING

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference;
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help
