INTRODUCTION

Thank you for purchasing the LEMEGA PR1L.

Please follow the guidance of the manual to set up your device and enjoy its fantastic features.

CONTROLS

1. LCD Display	7. DAB/FM Button
2. Preset Button	8. Previous /TUNE- Button
3. Volume + Button	9. Select Button
4. Next/TUNE+ Button	10. Scan Button
5. Volume - Button	11. Power/Lock Button
6. Menu/Info Button	12. Reset Button

CONNECTIONS

1. 3.5 mm headphone socket	2. Type C-USB socket
----------------------------	----------------------

PRODUCT OVERVIEW

Charging the PR1L

1. Connect the Type C-USB cable to the Type C-USB port.

2. Connect the other end of the Type C-USB cable to a power outlet, using a USB power adapter. You can also charge the battery by connecting PR1L to a computer's USB port.

Switching on

Before you switch on the first time, charge the battery for at least 8 hours.

1. Connect the headphones into the headphone socket. The headphones are also the aerial.

2. Slide the Power/Lock switch into the position and then release the switch. PR1L switches on and starts tuning to digital radio stations. After the auto tune is complete, you can start listening to digital radio.

Locking the PR1L

You can lock the buttons, so you don't accidentally press a button.

1. To lock the buttons, slide the Power/Lock switch into the position.
2. To unlock the buttons, slide the Power/Lock switch into the middle position.

Switching to DAB/FM Mode

1. When powered on for the first time, it will start up DAB Mode.
2. If the PR1L is in DAB Mode, press the MODE button repeatedly until FM is shown on the display.
3. Once in FM Mode, PR1L will start scanning with the available FM range (87.50MHz) or play last FM radio station (See fig.1.).
4. To manually change the FM frequency, make sure that you have not selected any other sub-menus. Turn the TUNE+/TUNE- to change the frequency by 0.05MHz.

87.5MHz
[No RadioText]

Fig.1

Changing the DAB Display Information

1. If the PR1L is in DAB Mode, press MENU/INFO button to select different info to show on the display, such as DLS (Dynamic Label Segment), Signal Strength, PTY (Programme Type), Ensemble, Frequency, Signal Quality, Bit Rate Codec, Battery status, Time or Date.
2. If the PR1L is in FM mode, press MENU/INFO button to select different information to show on the display, such as Radio Text, PTY (Programme Type), PS (Programme Service), Stereo/Mono, Battery status, Time, or Date.

DAB Mode – Choosing Menu Options

1. In DAB Mode, press and hold MENU/INFO to enter the menu list shown on fig.2. Press NEXT/ PREVIOUS to select option through the menu list. Select your preferred option and press the SELECT button to confirm. The menu options are: Full Scan, Station list ,Manual Tune, Prune ,DRC and System.

DAB
< Full Scan >

Fig.2

2. **Full Scan** – In the menu list, press the Next/ Previous button to select “Full scan”. Press SELECT button to confirm (See fig.2).
The radio will automatically start scanning all DAB radio stations available. Once a full scan has been completed, the radio will start playing the previously selected radio station or the first one available from the list.

DAB
< Manual tune >

Fig.3

3. **Manual Tune** – As well as the normal method of scanning, you can also manually tune to a particular channel/frequency. This can be useful for adjusting your antenna to achieve the best possible reception and scanning a particular channel to update the station list. Under the menu list, press the Next/ Previous button to select “Manual tune”. Push SELECT to confirm and then press NEXT/PREVIOUS to select a particular channel/frequency. Push SELECT to confirm the setting (See Fig.3).The display shows a live indication of the received signal strength on the selected frequency. Adjustments to your antenna will be manifested in the received signal strength displayed.

4. **DRC (Dynamic Range Compression)** – This function reduces the difference between the loudest and quietest audio being broadcast. Effectively, this makes quiet sounds comparatively louder and loud sounds comparatively quieter. In the menu list, press the NEXT/PREVIOUS to select “DRC”(See Fig. 4). Push ENTER to confirm. Press NEXT/PREVIOUS to select and Push SELECT button to confirm the setting options: Off (default)/High/Low.

DAB
< DRC >

Fig.4

Note: DRC only works if it is enabled by the broadcaster for a specific station.

5. **Prune** – This removes all invalid stations indicated in the station list with a ‘?’ in front of the station name. In the menu list, press NEXT/PREVIOUS to select “Prune”. Push SELECT to confirm (See Fig. 5). Press NEXT/ PREVIOUS to select <Yes>, and push SELECT to confirm.

DAB
< Prune >

Fig.5

System settings

- 6.1 **Sleep** – To set the sleep timer while the radio is playing Press Menu> System setting>Sleep. You can choose the sleep delay time in minutes from: Sleep Off | 15 |30 | 45 | 60 | 90.
- 6.2 **Time** – if there is any DAB+ radio signal, the machine will automatically update the time, there is no signal, can also be set manually(SeeFig.6).
*Set Time/Date: Set Date>Set Month > Set Year
*Set Hour > Set Minutes >Saved
*Auto Update Options: Update from any / Update from FM /

EU Compliance Information

Eligible to bear the CE mark; Conforms to European Union Low Voltage Directive 2014/35/EU; European Union EMC Directive 2014/30/EU; European Union Restriction of Hazardous Substances Recast (RoHS) Directive 2011/65/EU; European Union WEEE Directive 2012/19/EU; European Union Eco-Design Directive 2009/125/EC; European Union Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) Directive 2006/121/EC. European Union Radio Equipment Directive (RED), 2014/53/EU.

To prevent possible hearing damage, do not listen at high-volume levels for long periods of time. Consistent exposure to high volumes when using headphones can damage your hearing. Always check the volume level before you insert headphones into your ears. Use of headphones other than those supplied by manufacture expose you to hearing damage, as the high-level volume warning on the device may be inaccurate. Use of headphones while operating a vehicle is not recommended and is illegal in some areas. If you find that listening to is distracting while operating any type of vehicle or performing an activity that requires your full attention, stop listening.

- Do not use your product in extremely hot or cold temperature. Keep the device away from heat sources, such as radiators or gas/electric fires. Do not expose your product to naked flames, such as lighted candles.
- To charge your product, only connect it to a supply source that meets the Safety Isolation requirements of EN 60065 or EN 60950-1 for an accessible safety extra low voltage circuit. For this connection, use either the supplied Type C-USB cable or a suitably CE approved power adapter with the correct USB output rating.
- Power the product using an external 5V DC 1A power supply. The maximum output current is 1A, protected by an internal circuit.
- Before charging your product, ensure that the available supply voltage corresponds with the required operation at voltage of the product.
- Disconnect your product from the charging power supply if you will not use your product for a long period of time (for example, if you are going on holiday).
- Always unplug your product from the charging power supply before cleaning. When cleaning the product, do not use any type of abrasive pad or abrasive cleaning solutions as these may damage the product's surface.
- To reduce the risk of electric shock, do not remove any screws. The product does not contain any user-service able parts inside. Product repairs should only be carried out by authorized personnel.

SPECIFICATIONS

Model: PR1L
Type: Portable Digital Radio
Power output: 1CH X1.2W
Power Supply: 5V DC (1A) Type C-USB power socket
Dimension (mm): 90 mm (H) x 51 mm (W) x 16 mm (D)
Weight: 0.1KG

Specifications are subject to change without notice.

SAFETY INSTRUCTIONS

Please read this owner's Manual completely before operating this unit and store this instruction manual for future reference.

- If you do not follow the operating instructions provided, it may compromise the safety of your product and this may invalidate the warranty.
- Do not expose the product to dripping or splashing. Do not place objects filled with liquids, such as vases on the product. If liquid or water spills onto the product, switch it off immediately and contact your retailer. If you are using a mains-powered adapter, do not touch the product with wet hands.
- The internal battery in this product is not user replaceable. Do not expose the battery to excessive heat or naked flames. Ensure adequate ventilation and airflow around the product, particularly when charging. Dispose of the product in accordance with local environmental rules.
- Using the product in rooms or climates with high humidity and temperatures may cause condensation to form inside the product, which can damage the product. Use the product in moderate climates only.

- If PR1L is in DAB mode, you can press NEXT /PREVIOUS buttons to scroll through the radio stations list while playing a radio station.
In DAB mode, you can also use NEXT/ PREVIOUS buttons to navigate through radio Menu list/ Options.
- If the radio is in FM Mode, you can press NEXT/PREVIOUS buttons to manually adjust the frequency by 0.05MHz. Alternatively, press and hold TUNE+/TUNE- button to auto-scan station.
While in FM mode you can also use NEXT/PREVIOUS buttons to scroll through the Menu list/ Options.

VOLUME +/- Button

Adjusting Volume - Turn the Volume dial to increase or decrease the volume.

Performing a Battery Reset

If the controls stop responding, perform a battery reset. To perform a battery reset, use a paper clip to press the reset button on the side.

SUPPORT

If you require further assistance with your new radio, please contact our support team at info@lemegaaudio.com

www.lemegaaudio.com

Scan me on your smartphone camera for more information

(Options: Stereo allowed | Forced mono) in "Audio Setting" (See Fig.12). Press SELECT to confirm the change to new setting. It will automatically change to new setting after 3 seconds.
