TWS Use

Charging

Tepinnn QCY-T3 true wireless earphones are equipped with a compact and lightweight charging case, with a built-in rechargeable battery, which can provide up to 5 times full charge for the earphones.

Charge the Earphones

Insert the earphones into charging case (pogo pins should be well-contacted). LED will be solid red when charging and turn to white for 60s once topped up.

Charge the Case

Please charge the case via USB cable. LED glows solid green when the case is being charged and turn off once topped up.

Notice: If you put earbuds back into the case when the charging case is out of battery, the earbuds will not turn off auto but still connect with your device. You have to turn the earbuds off manually. In other words, you need to charge the case if you found that the earbuds connect your device in the charging case.

Pairing

First Time Pairing

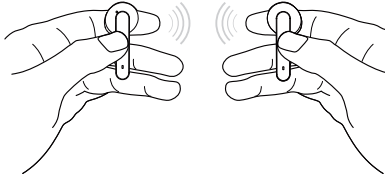

Open the lid and pick up two earbuds from the case. They will auto power on and connect with each other. Right earbud will auto enter pairing mode when left LED turns off. On cellphone, search for QCY-T3\_R and tap to connect cellphone to both earbuds.

One Step Pairing

Take out both wireless earbuds from the charging case, they will turn on automatically and will connect with your smartphone in seconds.

-3-

(Please try the following steps, in case you fail to build connection.)

Power off T3, touch both bars for about 20s or until LED blinks red and white. Pop earbuds into the case to set factory. Pick them up from the case and they will auto power on and pair with each other. The right earbud will auto turn to be connectable to phone when LED on left earbud turns off. On cellphone, search for QCY-T3\_R and tap to connect.

**Notes: Two earbuds should pair with each other in 20s otherwise they will turn to be connectable to phone.**

-4-

3 Mode

Mono Mode

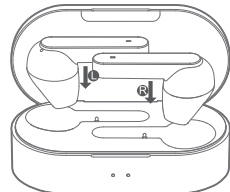

You can use any of the earbuds separately as you want. Notice: The Right earbud is the main earbud. If you want to use the Right Earbud alone, it will auto connect your phone when taken out of the charging case; but if you want to use the Left Earbud alone, it can not connect to your device automatically, you need to search the QCY-T3\_L on your bluetooth list and click it to connect your device.

Stereo Mode

Simply take both earbuds out of the charging case, the right earbud will connect to your device automatically, the left earbud will pair the right earbud and connect to your device.

Share Mode

You can share one earbud to your friends or family. Notice: Please take out the left earbud first and connect to one device; then take out the right earbud to connect with the other device (cause the right earbud is the main earbud, if you connect right earbud first, after you take out left earbud, they will auto pair with each other).

-5-

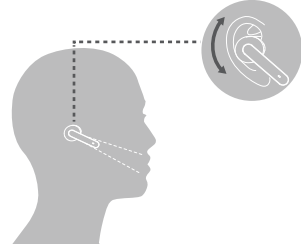

Comfortable Design

Fit to your ears

QCY-T3 wireless earphones are designed to comfortably fit in your ears. Its in-ear design fits securely and won't fall out. Perfect for sports, workout, running, jogging, listening to music and watching TV.

Wearing the earphones

- Place the earphones into your ears.
- Adjust the earphones upwards till the microphone points directly to your mouth.

-6-

Trouble Shooting

**Q: How long does it take to charge them and how long does the battery last?**

**A:** It takes about 1.5-2 hours to charge the earbuds in the charging case. And it's up to 5 - 6 hours continuous talk or music time on one charge.

**Q: Can I use just one ear piece and leave the other in the case?**

**A:** Yes, you can use one ear bud and leave the other in the case, and both earbuds are with built-in microphone.

**Q: The sound is not very clear/the caller cannot hear my voice clearly.**

**A:** Please adjust the volume on your phone. Make sure there is no source of interference nearby. Stay close to your phone.

**Q: Why the connection is not stable and cuts out intermittently?**

**A:** Different form Wi-Fi or other wireless signal transmission, Bluetooth would be affected by wireless signal around and barriers between. Please make sure there are no objects between the earphones and your Bluetooth device, and no radio or Wi-Fi interference nearby.

**Q: What is the range of Bluetooth earphones?**

**A:** Bluetooth earphones have maximum range of 33 feet (10m, no obstacle). If you are out of this range, the earbuds will get disconnected and music will stop; when you come back, the earbuds will connect to your device automatically, but you need to press the MFB to listen to music again.

**Q: My earphones will not switch on.**

**A:** Please recharge it and make sure it has enough battery power. If it is fully charged and still nothing happens or if you are not able to charge the earbuds though the charging case is working well, please contact our customer support for warranty cover.
