

## FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

\* RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

## MUSIC BOXING TARGET

(Built in battery)

### Operation instruction

Please read the instructions carefully before use

### Handling instruction

Tip: Bluetooth connection name (quanji)

### Charging instructions

Charging by connecting wiring with USB charger  
Battery capacity: 500mA

### Matters need attention

1. Rest for 30 minutes after meals before use;
2. It is not suitable for use when the body is unwell;
3. Electronic products can not be washed with water, but can be wiped with a rag;
4. Charge the machine battery in time after it is dead to prevent the battery from losing power;
5. Stop using it immediately if you feel uncomfortable during use;
6. It is recommended to wear boxing gloves when using;
7. It is forbidden to disassemble the product without permission.

### Product introduction

Boxing is a fighting sport, in which two boxers hit each other with gloves on their fists. It is both an amateur and a professional sport. In boxing training, boxing targets are usually used to train the speed and strength of the players. Because the gap of the opponents in boxing matches is fleeting, compared with strength training, it is more important for the players' offensive and defensive reaction ability. The products train people's reaction ability through electronic control of lighting guidance, and judge whether they hit the target accurately through sound effect prompts, thus effectively exercising people's overall coordination and reaction ability.

### Installation instructions

Figure ①

The first installation method: (as shown in Figure ①) Tear off the non-adhesive protective paper on the back, and paste the boxing target on the target installation position to level the surface. Note that the distance between the charging port and the socket should not exceed 1.5 meters.

Figure ②

The second installation method: (as shown in Figure ②) Install the back suction cup into the bayonet position and press it tightly for installation. Press the boxing target hard and adsorb it on the target position until the air in the middle of the sucker is exhausted, and then you can let go. Please choose to attach it to the wall of the tile. Note that the distance between the charging port and the socket should not exceed 1.5 meters.

Tip: When installing the sucker, you can dip a little water, which will make the sucker suck more tightly! If you don't use it for a long time, please remove it in time to avoid falling off and hurting.
