8. Kit Contents

8.1 Cables and accessories

CarPlay decoder box

Power cable harness

LVDS cable

WiFi antenna

USB-AV cable

Mic cable

8.2 Cable connection chart

Please follow the connection chart accurately (detailed instructions below).

After the cables are all connected, you will be able to switch between the original BMW and the CarPlay interfaces by long pressing the "MENU" button on the iDrive knob.

8.3 LVDS cable connection

- 1) The ORIGINAL LVDS cable goes from the HEAD UNIT to "LVDS IN" of the CarPlay box.
- 2) The NEW LVDS cable goes to THE SCREEN from the "LVDS OUT" of the CarPlay box.

Note: Connecting the LVDS cables incorrectly will result in a black screen!

8.4 WiFi antenna and USB-AV cable connection

8.6 The CarPlay interface decoder box should be installed in an appropriate space near, or on, the OEM head unit.

on the OEM head unit

Beside the OEM head unit

9. CarPlay Decoder Sound Setup

9.1 Bluetooth settings

If your phone already has a bluetooth connection to your car, disconnect it.

9.2 AUX Connections

There is no need to connect the EXT-AUX cable to your car AUX port, unless your car is a BMW 3 / 4 series or a 1 / 2 series.

9.3 AUX Settings

Before using the CarPlay system, you need to set the sound input on your OEM interface to "AUX", otherwise the CarPlay /Android Auto system will have sound!

9.3.1. On the original BMW System, navigate to the "Multimedia" menu and click "External devices"

9.3.2. Click on "AUX front" to activate it.

9.3.3. Keep the setting in the original BMW system on "AUX front"

A close-up photograph of a car's center console control panel. The panel is black with silver accents. A red circle is drawn around the 'MENU' button, which is located to the left of the central rotary knob. Other visible buttons include 'CD', 'RADIO', 'EL', 'AUX', 'BACK', and 'OPTION'. The central knob has four directional arrows (up, down, left, right) and a small 'AUX' label above it.

voice control button

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) This device may not cause harmful interference, and
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body
