

AH-C360

In-Ear Headphones

DENON

Acoustic Luxury

Featuring Denon's latest in-ear headphone technologies, the AH-C360 provides smooth, natural tonal balance and supreme in-ear comfort.

The AH-C360 combines Denon's new Radial Cascade Damper technology, which minimizes extraneous cable noise, along with Denon's renowned Acoustic Optimizer system for smooth, balanced sound.

Features

Key Features

- Radial Cascade Damper reduces cable-transmitted vibration noise
- Acoustic Optimizer
Acoustic Optimizer achieves optimum acoustic characteristics by adjusting the sound pressure balance in front of and behind the diaphragm. It minimizes muffling in the low frequency range, reduces modulation effects in the mid to high frequency ranges, and achieves a smooth, natural tonal response.
- Ergonomic design for the best quality fit and increased comfort
- Hybrid material driver housing for the highest fidelity sound reproduction

Other Features

- Dynamic sound from 9mm Neodymium magnet drive units
- Canal-type in-ear headphone reduces external noise
- Convenient semi-hard shell carrying case included
- Cable clip
- 0.7m Oxygen Free Copper cable with straight plug
- Extension cable: 0.8m with L-type plug
- Comes with silicon ear pads in 4 sizes (XS/S/M/L)
- Gold-plated stereo mini-jack
- Fully compatible with the original iPhone without an adaptor
