## User Manual & Warranty Card

**T50**

**EXCLUSIVE WARRANTY CERTIFICATE**

## Activate Your Warranty

Complete the registration in two minutes and enjoy the brand VIP benefits.

1. Activate and extend warranty: Register to activate your **2-year** warranty. Registering within 24 hours of receiving, you can get a **3-year** warranty.
2. **24-hour** technical service support.
3. Free return and exchange within **30-day**.

## ❶ How to insert the TF card

- Press the card pin into the side hole and then the card pops up and pull out it.

- Take out the card slot and place the TF card with the metal side facing down. Make sure the bevel angle is aligned with the bevel angle of the card slot and placed in the corresponding card slot.

- Insert the card tray into the device following the direction of the arrow.

## ② How to boot

- **Non-removable battery**
- **Press the power button for 3-5 seconds to boot**

## ③ Language switching settings

- Main menu—settings—system setting—language and input method.
- Language and input method—language—language adding.
- Select the language you need, the system will automatically jump back to the language interface.
- Select the icon after the language bar and drag it to the first one.

## ④ SAR

- For the countries that adopt the SAR limit of 2.0 W/kg over 10 grams of tissue. The device complies with RF specifications when used at a distance of 5mm from your body.
- For the countries that adopt the SAR limit of 1.6 W/kg over 1gram of tissue. The device complies with RF specifications when used near your ear or at a distance of 0mm from your body. SAR information on this can be viewed on-line at <http://www.fcc.gov/oet/ea/fccid/>.

## **ⓐ Safety- In order to ensure safely using the product, you must strictly abide by the following rules**

- The pad should be at least 15 cm away from any medical implant or rhythm adjuster and never put the device in your coat pocket.
- Do not expose the device and other batteries together with the high temperatures or heat-generating equipment such as sunlight, heaters, microwave ovens, ovens or water heaters. Overheating of the battery can cause an explosion.
- When charging is complete or not charging, disconnect the charger from the device and unplug the charger from the power outlet.
- If the device is equipped with a non-removable battery, do not replace the battery yourself to avoid damaging the battery or device.
- Use of an unapproved or incompatible power source, charger or battery may cause fire, explosion or other hazards.
- Do not disassemble or reset the battery, insert other objects, immerse in water or other liquids to avoid battery leakage, overheating, fire or explosion.
- Do not drop, crush, scratch or puncture the battery to avoid subjecting the battery to excessive external pressure, resulting in internal short-circuit and overheating of the battery.
- The company does not bear the responsibility for accidents caused by non-standard related charging equipment.

## ⑥ Maintenance

- Thoroughly understand the maintenance of this pad to use the pad more safely and effectively, and extend the service life of the pad as much as possible.
- Please follow the instructions in the manual to open the pad, disassemble the accessories, and do not try other methods.
- Please avoid falling, knocking or shaking your pad. Rough handling of the pad can cause the screen to rupture, damaging the internal circuit board and the delicate structure.
- Do not use chemical solvents or detergents to clean your pad. Wipe the pad case with a soft cotton cloth dampened with water or a mild soap.
- Clean the lens with a clean, dry, soft cloth. (Example: camera lens) and display.
- If you encounter an abnormal image such as a crash during use, the processing method is as follows: For a pad that cannot remove the battery, please press and hold the power button for more than 12 seconds, the pad will be forced to restart (unlock the pad when restarting) It can solve the general bug; for the pad that can remove the battery, please remove the battery, then insert the battery and restart it to solve the bug.
- When the charger is not in use, please unplug it from the power outlet. Do not connect the battery that has been fully charged to the charger for a long time, as overcharging will shorten the battery life.

## ⑦ Check your certification number

- If you want to check your certification number, please follow these steps: **Settings - About Tablets - Certification.**

## 8 CE Caution:

Use careful with the earphone maybe possible excessive sound pressure from earphones and headphones can cause hearing loss.

- Restrictions in the 5 GHz band:

According to Article 10 (10) of Directive 2014/53/EU, the packaging shows that this radio equipment will be subject to some restrictions when placed on the market in Belgium (BE), Bulgaria (BG), the Czech Republic (CZ), Denmark (DK), Germany (DE), Estonia (EE), Ireland (IE), Greece (EL), Spain (ES), France (FR), Croatia (HR), Italy (IT), Cyprus (CY), Latvia (LV), Lithuania (LT), Luxembourg (LU), Hungary (HU), Malta (MT), Netherlands (NL), Austria (AT), Poland (PL), Portugal (PT), Romania (RO), Slovenia (SI), Slovakia (SK), Finland (FI), Sweden (SE), the Turkey (TR), Norway (NO), Switzerland (CH), Iceland (IS), and Liechtenstein (LI).

The WLAN function for this device is restricted to indoor use only when operating in the 5150 to 5250 MHz frequency range.

- Declaration: Our equipment which support 5G Wi-Fi all meet the above EU Standards. Otherwise, they do not meet the above standards.

The object of the declaration described above is in conformity with the essential requirements of the relevant Union harmonization legislation: Radio Equipment Directive RED (2014/53/EU).

## Ⓣ FCC Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

This Product meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radiofrequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution:

Operating Frequency Range band 5150-5250 MHz "for indoor use only."

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: T50 (FCC ID: 2BU85-T50) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for when properly worn on the body is 0.917W/kg. This device was tested for typical body-worn operations with the back of 0mm from the body.

To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 0mm separation distance between the user's body. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

#### Body-worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 0mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

## 10 ISED Caution:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

This device may not cause interference.

This device must accept any interference, including interference that may cause undesired operation of the device.

This Class [B] digital apparatus complies with Canadian ICE-003.

### Français

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes:

L'appareil ne doit pas produire de brouillage;

L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet appareil numérique de la classe [B] est conforme à la norme NMB-003 du Canada.

The device has been evaluated portable device RF exposure requirements. The device is kept at least 0mm away from the user's body. Caution: Operating Frequency Range band 5150-5250 MHz "for indoor use only."

### IC SAR Statement:

Tablet has been tested and meets applicable limits for radio frequency (RF) exposure. Specific Absorption Rate (SAR) refers to the rate at which the body absorbs RF energy. The SAR limit is 1.6 watts per kilogram in Canada that set the limit averaged over 1 gram of tissue. During testing, Tablet radios are set to their highest transmission levels and placed in positions that simulate when worn or carried against the torso of the body, with 0mm separation reduce exposure to RF energy, use a hands-free option, such as the built-in speaker phone, the supplied headphones, or other similar accessories. Cases with metal parts may change the RF performance of the device, including its compliance with RF exposure guidelines, in a manner that has not been tested or certified. Although this device has been tested to determine SAR in each band of operation, not all bands are available in all areas. Bands are dependent on your service provider's wireless.
