Warranty (Korea) (P5)

The warranty period is one year. For any quality issues during this period, please contact ODD.NT Co., Ltd. customer service. (+82.2.6958.8901)

- Returns/exchanges due to change of mind are accepted within 7 days of receipt.
- Refunds are not available if the product's value is lost by usage.
- Unauthorized returns will not be accepted. Please contact customer service first.
- Compensation follows Korea Fair Trade Commission regulations.

Safety Instructions

- Do not disassemble, modify, or repair the product yourself.
- Stop using immediately if the product or accessories are damaged.
- This product supports dual fast charging.

It is recommended to use an adapter with 45W to 67W output. (Using an adapter over 67W per port may cause excessive heat.)

- Do not rotate the side charging pad excessively, as it may cause damage. (Please check the allowable rotation angle before use.)

(P6)

- Do not heat this product or place it near fire (hot places), and do not apply excessive force.
- Do not use chemicals such as alcohol, solvents, surfactants, wax, benzene, thinner, insecticide, air freshener, lubricant, or detergent on the product. This may cause discoloration, cracking, or erasure of markings.
- Do not spray water or cleaning agents directly onto the product. This may cause damage or malfunction.
- As the exterior is vulnerable to scratches, use a soft cloth.
- Be careful not to allow children, infants, or pets to suck or bite the product.
- Be careful that children, infants, or pets do not get body parts (neck, arms, legs, etc.) caught in the charging cable.
- Use the product properly so that it does not fall from a high place. Product defects or damage may occur.
- When using on shelves or tables, be careful of falling, as it may cause injury. (Special care is required for children, infants, or pets.)
- Place the product on a flat and safe surface. If installed on an inclined or unstable place, it may tip over or fall and cause injury.
- During charging, be careful not to damage the cable by twisting or bending. This may affect performance or cause malfunction.

(P7)

- When using the charger, ensure that overheating does not occur.
- If overheating occurs, immediately disconnect the power and stop use.
- Avoid exposure to sudden temperature changes or high humidity.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio

(P8)

communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. To maintain compliance with FCC's RF exposure guidelines, the distance must be at least 20 cm between the radiator and your body, and fully supported by the operating and installation configurations of the transmitter and its antenna(s).

Disposal Instructions (P9)

This product and its components (including the battery) must be disposed of separately from household waste in accordance with local regulations. At the end of its service life, take the product to a designated collection point. Proper disposal and recycling help conserve natural resources and protect human health and the environment. For more information, contact your local authorities or the Korea Environment Corporation.
