.....

Please read the instructions carefully before using it.

Note:

Before turn on the amplifier, ensure that the MIC don't point at the amplifier, this will eliminate any annoyance associated with howling. For ensure better amplification, aim at the headset MIC capsule when speaking, and keep the distance between the voice amplifier and the MIC more than 60 cm to avoid howling.

Simply tucking the speaker around waist, and mounting headphone over head can help achieve the required distance.

Features:

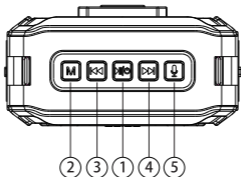

- 1.Two-color injection molding, IPX5 waterproof;
- 2.Support Bluetooth 5.0 and recording function;
- 3.High-capacity 3.7V 2500mAh lithium-ion battery;
- 4.Supports TF card & USB flash drive play.

Specification:

Max output power:	18W	Frequency response:	80Hz-18KHz
Output Impedance:	2Ω	Work temperature:	-10°C-45°C
Charging voltage:	DC 5V 1.5A	Amplify time:	6-8 hours
Music-play time:	5-7 hours	Charging time:	3-5 hours

.....
