

Dual Function AFCI/GFCI Circuit Breaker

Features

- Plug-in or bolt-on branch circuit breakers for Siemens load centers and panelboards
- Self Test feature as required by UL 943 effective June 2015
- Saving time – ease of installation – only One product to install vs. Two
- Saving money – Two safety devices combined into One.
- LED trip indicator – a Siemens exclusive!
- Available with interrupting rating of 10kA, 22kA or 65kA
- UL Listed CCN: DIYG
- Ratings:
 - HACR
 - SWD
 - 120 Volts AC
- Wire range:
 - #14 – #8 AWG Cu
 - #12 – #8 AWG Al
- Torque: 25 lb. in.
- Padlocking device available, use catalog number ECPLD1
- Both lugs at the same angle - for easier wiring

Two state-of-the-art technologies combined in one device. Introducing the Dual Function Circuit Breaker that provides Combination Type Arc Fault and Class A 5mA Ground Fault protection in one device.

The 2014 National Electrical Code (NEC®) requires Arc Fault protection on kitchen and laundry circuits where Ground Fault protection is currently a requirement. One solution to meet this code is to pair an AFCI circuit breaker with a GFCI receptacle. The Dual function breaker will replace the Arc Fault breaker and the Ground Fault receptacle. Additionally, the breaker will help eliminate the use of two separate devices and improve cost savings.

It is recommended to test your Dual Function device every month.
