

Remote Control Instruction Manual

Product Name: Dema Remote Control

Product Model: 01 Square Mini Remote

I. Product Application Scope

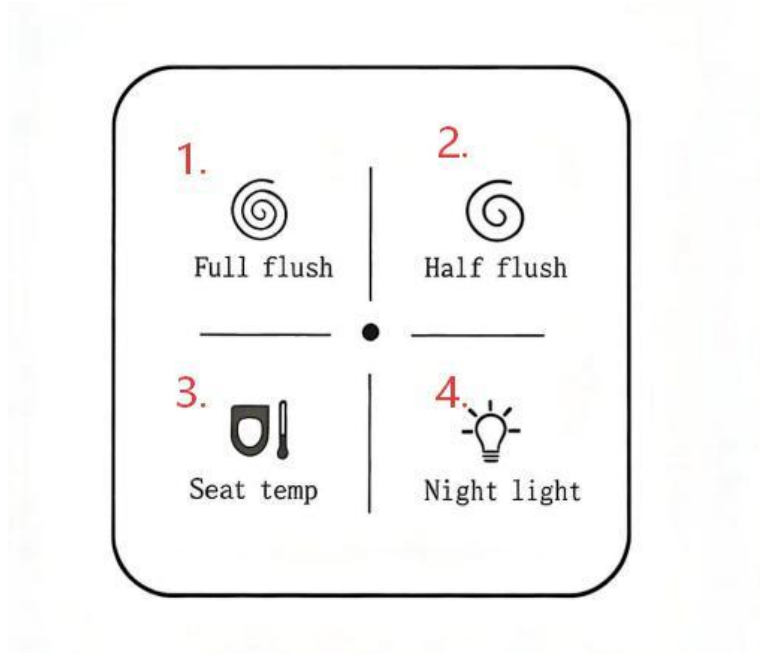

This product is applicable to integrated smart toilets and smart toilet seats.

II. Product Operating Conditions

1. Operating Environment: This product is required to be used in an environment free of dust and corrosive air.
2. Operating Temperature Range: Ambient temperature 0°C~40°C
3. Operating Humidity Range: Ambient humidity $\leq$ 95%RH (no condensation)
4. Storage Temperature Range: -10°C~50°C

III. Product Characteristics

1. Operating Voltage: 3.3V (DC)

1.	Press the "Full Flush" button Press and hold to start the flushing and fully discharge the water volume
2.	Press the "Half Flush" button Press and hold to start the flushing with half the water volume
3.	Seat temperature button Press again to start adjusting the water temperature Seat
4.	Night light button for pressing switch on/off the night light

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception (which can be determined by turning the equipment off and on), the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Disclaimer:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
