Warranty

Equator Appliances undertakes to the consumer-owner to repair or, at our option, to replace any part of this product which proves to be defective in workmanship or material under normal personal, family or household use, in USA and Canada, for a period of one year from the date of original purchase. For commercial use, the product is warranted for a period of 90 Days. During this period, we will provide all labor and parts necessary to correct such defect, free of charge, if the appliance has been Installed and operated in accordance with the written instructions with the appliance. Ready access to the appliance, for service, is the responsibility of the consumer-owner. Services would be provided from Monday to Friday between normal business hours.

Exclusions

In no event shall Equator Appliances be liable for incidental or consequential damages or for damages resulting from external causes such as abuse, misuse, incorrect voltage or acts of God. This warranty does not cover service calls which do not involve defective workmanship or materials covered by this warranty. Accordingly, diagnosis and repair costs for a service call which does not involve defective workmanship or materials will be the responsibility of the consumer-owner.

Specifically, the following work is not covered under warranty and does not constitute warranty work:

Installation - e.g. Insufficient spacing around appliance
Maintenance - e.g. Cleaning the appliance using solvents
Mishandling - e.g. Breakage of cover

Most work is covered. The defining factor is, has the machine malfunctioned (Equator Appliances is responsible) or has the customer omitted or done something to cause the machine to malfunction (customer is responsible). Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation of exclusion may not apply to you.

Note: ***The QR code can also be used to submit a Product Review and to access Product Information, Manuals and Updates.***

2. Register online at ApplianceDesk.com/Warranty

GENERAL

Since it is a responsibility of the consumer-owner to establish the warranty period by verifying the original purchase date, Equator Appliances recommends that a receipt, delivery slip or some other appropriate payment record be kept for that purpose.

This warranty gives you specific legal rights, and you may also have other rights which vary from State to State.

All rights reserved. Manual subject to change without notice.

Congratulations on your new Air Purifier!
In addition to its contemporary design, this is a highly sophisticated engineered product that will give you many years of satisfaction.

Here are some of the best reasons for buying your appliance for the ultimate clean air experience:

- Multiple filters and functions that cleans and sterilizes the air you breathe.
- ION function to remove smoke and odors.
- UVC light to kill germs, bacteria and fungi.
- Carbon, outer and HEPA filter to keep your family and pets surrounded by fresh, clean air.
- Touch controls make it easy to use.

Safety ⚠

Ensure NOT to do the following:

- Use near volatile or flammable items.
- Immerse or wash with water.
- Obstruct the air outlet area.
- Use if power cord or plug are damaged.
- Insert or remove the power plug with wet hands.
- Unplug by pulling on the power cord.
- Place objects on top of the appliance.
- Use strong chemicals or abrasive materials to clean the appliance.

Ensure that the adaptor connector is plugged in to unit first, before plugging the appliance into the main power socket.

Ensure the appliance is unplugged before moving it or doing any maintenance on it.

Children should be supervised to ensure that they do play with the appliance.

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction.

Please dispose of this appliance in accordance with local regulations.

Placement

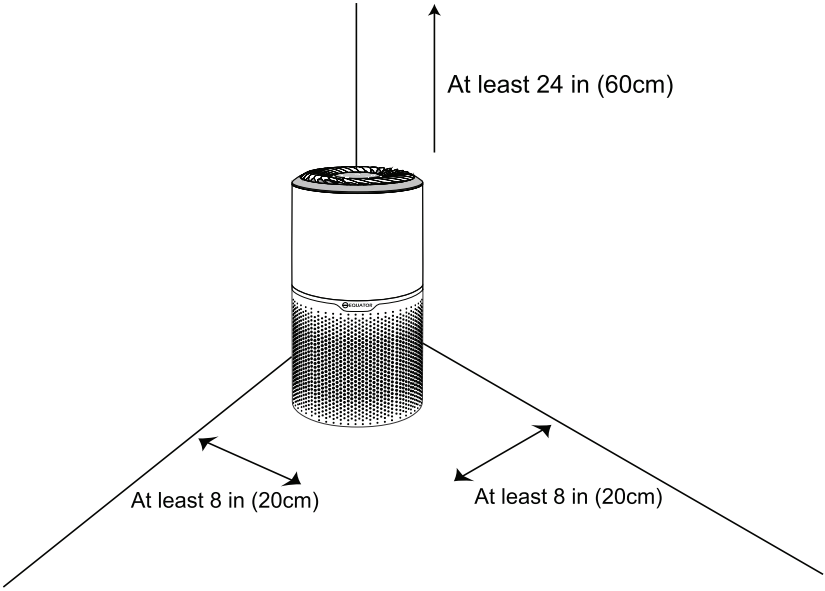
Place the appliance on a flat stable surface, away from any obstructions. Do not place it near an edge, where it could fall over.

Place away from heat sources, such as stoves, heaters, etc.

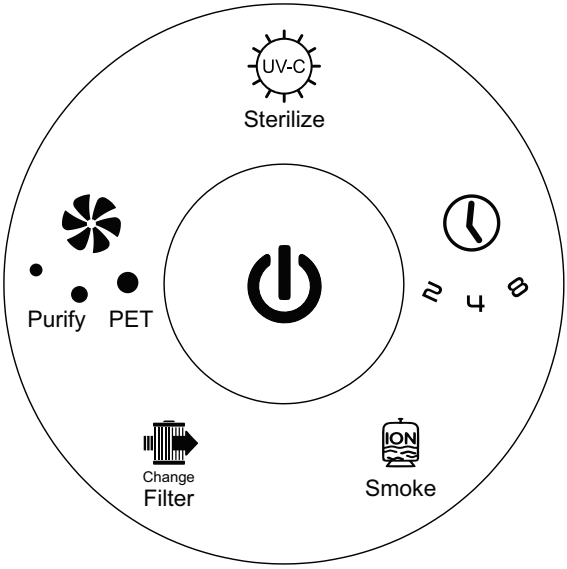
Ensure the power cord is away from traffic areas to prevent a tripping hazard.

Connect the Power Adaptor plug into a dedicated 110V/60Hz electrical socket.

Ensure there is adequate space around the appliance. It should be at least 8 inches (20 cm) away from walls or furniture and there should be at least 24 inches (60 cm) of clearance above it.



Operation



The Air Purifier use UV-C sterilizes the air by killing germs, bacteria, microbes and fungi.

The Ionizer removes dust and smoke, using negative ion technology to purify the air. The active carbon deodorizing fiber filter can fully filter out PM2.5 (particulate matter) and formaldehyde.

The Air Purifier uses a pre-filter, true HEPA filter and carbon-activated filter, which removes fur, dust, particles and odors. If you have pets, the 3-part filtration system is ideal for keeping the indoor air fresh and clean.

This appliance is intended for indoor household use only.

The Control Panel is located on top of the appliance. The appliance can be operated by either pressing the buttons on the Control Panel or on the Remote Control. To operate the remote it must be within 15 feet of the appliance. The Power button is in the center, with the following buttons located around it: UV-C, Timer, Ionizer, Filter Alarm and Fan Speed.

Press the Power icon ⏻ to start or stop operating the appliance. When turned on, the Power button illuminates, and air purification begins. Air intake is from 360 degrees in all directions. The clean air will come out from the top.

Press the UV-C icon

to select the Sterilization mode. The UV-C function sterilizes the air by killing germs, bacteria, microbes and fungi.

Press the Timer icon ⏲ to select 2, 4 or 8 hours as the duration of time desired for the appliance to operate.

Press the Smoke (Ionizer) icon

to select removal of dust and smoke.

The filter can be used for approximately 2200 hours. When it is time to change the filter, the Change Filter icon flashes and beeps. Press this button and the beep stops but the icon will continue to flash until the filter is changed.

Press the Fan Speed icon

to select low, medium or high air flow speed. The air Purify dots will illuminate corresponding to the fan speed selected. PET is the highest speed and is recommended for cleaning the air if you have pets.

PET Function: When you select highest speed with PET the UVC and Ionizer will automatically start.

PET function combines high fan speed with UVC and Ionizer features.

This will remove microbes, bacteria, pet dander, hair and odors to clean and sterilize the air for optimum results.

Removing these harmful substances will bring relief for allergies, including asthma, sinus and irritation of the eyes.

If you do not need UVC or Ionizer, please deactivate them by pressing the appropriate UVC and Ionizer icon once.

Changing the Filter

(Combined pre-filter, true HEPA filter and carbon-activated filter)

Ensure the appliance is turned off and unplugged before changing the filter.

1 2 3

- Carefully turn the appliance upside down and rest it on a stable surface.
- Turn the base cover counterclockwise and remove it.
- Remove the old filter and replace with the new one.
- Turn the base cover clockwise to lock the filter in place, and then return the appliance to the upright position.
- Press and hold the Filter button for **3** seconds. The Filter icon will stop flashing and the appliance will recalculate the filter replacement time.

Maintenance

Use a dry cloth to clean the appliance. Do not use chemicals and cleaning solutions to clean.

Troubleshooting

Problem	Possible Reason	Solution
Appliance is not working	Not connected to power	Connect to power supply
	Power is not switched on	Press the Power button
	Power adaptor is loose	Connect the adaptor firmly
Odor emitted from outlet	The filter is full of dust and odors	Replace the filter
	Filter has been used for many hours and needs to be replaced	Replace the filter
Poor purifying efficiency	The appliance is placed where there is not adequate ventilation and air is blocked	Change location and remove barriers
Noise	Air outlet fan is obstructed	Clear obstructions

Specification Table

Model	APS 270 W
CADR (Clean Air Delivery Rate)	150 m^3/h
Application Area	269 sq ft
Adapter Input / Output	100-240V / 12V / 2A
Noise Level	40dB
Net Weight	4.6 lbs
Product Dimensions (HxD)	8.7" x 15"

California Proposition 65
