USAGE GUIDE

HOW TO USE Pillow Sound Disc – a new gadget for listening to music while sleeping

BASIC OPERATION Bluetooth ID: OOBANG - Done / Tone / Xone

- Power On / Off** - Long press the main button for 2 seconds to power on and enter Bluetooth pairing mode. When powered on, long press the main button for 2 seconds to power off.
- Bluetooth Pairing** - Power on → Turn on Bluetooth on your phone → Find OOBANG and tap to pair and connect.
- Auto Timer Shutoff** - Once powered on and connected to Bluetooth, a 2-hour timer starts automatically. Short press the main button once to cancel or restart the timer.
- Unpair Bluetooth** - Short press the main button 5 times in a row. The device will disconnect the current phone and clear all previous pairing records.
- Dual Device Pairing** - Turn on both devices without connecting to Bluetooth. Double-click the main button on either device to start pairing. After a voice prompt confirms successful pairing, connect either device to your phone's Bluetooth. The system will automatically switch to dual stereo mode. (Keep devices within 10 meters; pairing mode exits if not successful within 16 seconds.)
- Exit Pairing Mode** - In dual pairing mode, double-click the main button on either device to exit pairing and switch out of stereo mode.

HIDDEN FEATURE

- ◆ Voice prompts / Low battery alert / Bluetooth disconnection & out-of-range alert (powers off after 10 minutes disconnected)
- ◆ Supports fast charging ◆ Battery level displayed on phone ◆ Can work while charging
- ◆ Automatically switches to phone call during incoming calls
- ◆ Pairing memory; automatically reconnects to phone when powered on
- ◆ Pauses phone speaker when powering off to avoid disturbance

Package Includes: [Pillow Audio Disc Host, 1 User Guide] (No charging cable or adapter included)

FCC Requirement

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are

designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful

interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to

try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
