

Magnetic Wireless Charger

OVERVIEW

1. USB-C charging cable
2. Qi2.2 magnetic wireless charging pad

INSTALLATION AND USE

1. Connect the product with included cable to a 30W or above power adapter (not included). Connect the adapter to a wall outlet.
2. The device that supports wireless charging (such as phones) can be charged on the charging pad. Simply put the device on the charging pad to charge.
Note: To ensure charging efficiency, remove phone case before charging.
3. Compatibility: Compatible with Apple MagSafe and other magnetic wireless charging devices.
Note: Requires at least 30W PD adapter (sold seperately)

SPECIFICATIONS

Model name	Magnetic Wireless Charger
Wireless output power	5W / 7.5W / 15W / 25W
USB-C Input	5.0V = 3.0A, 9.0V = 3.0A, 15.0V = 2.0A
Cable length	1.8 m
Dimensions	60 x 60 x 9 mm
Weight	≈70g
Included in the packaging	- Magnetic wireless charger - User manual

WIRELESS CHARGER

SAFETY INFORMATION

This product is safe for regular use under normal conditions. As with any device using electrical power, some situations may be unsafe and injuries or damages could result. To minimize or avoid unsafe conditions, read and follow the instructions before using.

- Avoid dropping.
- Do not disassemble.
- Do not place metal objects between devices and the wireless charging pads.
- Thick protective case (≥ .2 in. [5 mm]) or a case that includes a magnet or metallic material, may not allow proper charging function.
- Keep wireless charging pad away from any liquid or moisture.
- The maximum ambient temperature during use of this product must not exceed 104° F (40° C).
- Do not place this device in fire or other excessively hot environments.
- Must use provided adapter for proper function, if not it may malfunction.
- This product is intended for home office use.
- For indoor use only.
- Consult local staff before using the product near medical

- or industrial equipment or on board an aircraft.
- Prevent cables from being pinched or damaged.
- A damaged cable or device may malfunction and/or overheat. (Fire hazard).
- Unplug the product if not used for an extended period of time.

WARNING:

- People with pacemakers should keep away from the magnets. The magnets can negatively affect the function of the pacemaker.
- Do not place any bank or similar cards with magnetic strips or magnetically sensitive objects on the product. The data on the cards could be damaged or completely deleted.
- Ensure that there are no metal parts on the back of your device. Metal heats up significantly in the field of an induction charger and can damage your device and/or the charger.

LEGAL NOTICES

FCC compliance

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
