产品功能展示

关于苹果手机

使用苹果手机时,请注意以下几点:
1. 确保手机iOS软件为14.8以上
2. 辅助缩放功能必须打开
iOS14.8 以上版本需设置方可使用。
设置如下:设置→辅助功能设置→缩放→缩放打开→3指轻点二下屏幕恢复,即可使用
设置如下:

3. 以上1项如果确认OK,还是不能正常使用请把手机关机再开机一次。
4. 充电提示:
充电红灯常亮,充满白光常亮。
温馨提示: 粘贴磁吸引磁环, 禁止使用无线充给手机充电。

About iPhone

When using an iPhone, please note a few things:
1. Ensure that the iOS software of the mobile phone is 14.8 or higher
2. The auxiliary zoom function must be turned on
Versions iOS14.8 and above require Settings before use. The Settings are as follows:
Settings are as follows: Settings → Accessibility Settings → Zoom → Zoom On → Tap the screen twice with three fingers to restore.

The Settings for use are as follows:
Second:

3. If the above one items confirm K but still cannot be used normally, please turn off the phone and turn it on again.
4. Charging Reminder: The red light remains on during charging, and the white light stays on when fully charged.
Please note: When attaching the magnetic ring, avoid using wireless charging for your phone.

FCC Caution:
This device complies with part 15 of the FCC Rules.
Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
