02. Make sure your smartphone supports wireless charging. Otherwise, it cannot be charged.
03. Do not use a phone case thicker than 2 mm, as this may prevent wireless charging.
04. Do not place any foreign objects between your phone and the wireless charger, including metal plates for car mounts, credit cards, keys, coins, metal objects, or NFC cards. Doing so may prevent wireless charging or cause overheating.
05. Do not disassemble, strike, crush, or throw this product into fire. Improper reassembly may result in a risk of fire or personal injury.
06. Do not use this product in extremely hot, humid, or corrosive environments, as this may damage the circuitry and cause electrical leakage.
