Hardware Installation Instruction

6

Locate the OBD port:

Area A: Above clutch pedal (Normal)
Area B: Above accelerator pedal
Area C: Under center console
Area D: In front of armrest box
Area E: Under passenger glove box

Insert the device directly. If needed, use an OBD extension cable

Precautions

7

Safety recommendations:

- Do not expose the device to water or moisture.
- Avoid temperatures below -4°F or above 140°F
- Do not cover the device with meta or shielding material.
- If the OBD port blocks driving operation, use the OBDII Splitter.

Troubleshooting

8

If the device does not activate:

- Check that it's properly inserted

- Ensure the vehicle is in an area with good GSM and GPS signal

- Complete activation through the FleetBold platform

- Contact support if problems persist

 - 2_ Log In to your FleetBold account.
 - 3_ Go to the Activation Menu and follow the Instructions to link the device.
- Note:** The device will not operate until activated through your account.

WHY CHOOSE FLEETBOLD

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm between the radiator and your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Important Notice

This device is intended for legal use only.
Unauthorized use may void the warranty
