

105x145mm 2P

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.

P20 Portable Karaoke Speaker

Operation manual

Function Introduction

Function Introduction

- Product Name: Portable Karaoke Speaker
- Product Model: P20
- Standard: GB4943.1-2022
- Output : 5W
- Input Signal: 42dB
- Battery: High-performance, high-capacity lithium battery
- Charging Voltage: DC5V
- Frequency Range: 30Hz-20kHz
- Power Supply: DC charging and built-in battery

Main Features

- High-fidelity electroacoustic system
- 3.7V high-performance battery
- Strong sound penetration and wide coverage
- Superior MP3 audio decoding technology
- Fully digital audio processing, clear sound quality, and high sensitivity

Charging Connection Diagram

Troubleshooting and Precautions

1. If the indicator light does not illuminate after powering on, please check if the speaker has sufficient battery power, or connect the speaker to a 5V/1A power supply for charging. The charging time is approximately (time missing) 2 hours.
2. If the microphone has no sound, it may be due to the power being off, the mode being incorrect, or the volume not being adjusted. Please adjust the microphone volume accordingly.
3. If the microphone has noise, it may be due to ambient noise, signal interference, or the microphone being too close to the speaker. Please readjust the microphone's orientation.
4. If you cannot find the P20 Bluetooth name, it may already be connected to another phone. Please move closer to your phone and avoid obstacles. Disconnect or turn off the Bluetooth of the other connected phone and then search for and pair again. Bluetooth playback may be interrupted because the Bluetooth distance is too far, or there are obstacles between the phone and the speaker affecting signal transmission. Please move closer to the connected phone and avoid obstacles.
5. If it cannot charge, check if the charger is working properly and whether the red indicator light on the speaker's charging port is lit.
6. After receiving the product, please fully charge it before using it.
7. When the product is charging normally, the indicator light will be red. The indicator light will automatically turn off when the battery is fully charged.

Service and warranty

Warranty terms and conditions:

1. If the product has any function problem, can enjoy the warranty service, the warranty period is 12 months.
2. Damages caused by human factors, drops, scratches caused by human factors, and those without a warranty card are not covered by the warranty.
3. Customer must fill in all necessary information (such as customer's name, address, telephone number, date of purchase, etc.)
4. We are responsible for the maintenance costs incurred during the warranty period. We are not responsible for the freight and other costs incurred during the warranty period.
5. Warranty service requires a warranty card and following the instructions; otherwise, warranty service will not be provided.
6. This product conforms to the regulations and technical standards of the People's Republic of China.
