

Hardwire Junction Box Installation Instructions

Installation instructions for Model 346-6472

Patriot
LIGHTING®

WARNING:

These products may represent a possible shock or fire hazard if improperly installed or attached in any way. Products should be installed in accordance with these instructions, current electrical codes and/or the current National Electric Code (NEC).

WARNING:

Disconnect supply power to the unit prior to installation. Consult a local licensed electrician if you are not sure about the installation.

WARNING: Hardwire junction box is for indoor use (dry location) only.

CONNECTING POWER

1. Ensure that power is disconnected to wiring prior to proceeding.
2. Open cover of the junction box by removing two retaining screws on top of unit. Lid will come loose, but still be connected to box with wires that go to switch on lid.
3. Locate exposed power wiring exiting from wall.
4. Install the UL Listed flexible conduit clamp (included with the junction box) or similar clamp through the hole in the back of the junction box.
5. Feed supply wires through this clamp and into the junction box.
6. Tighten clamp's screws to hold the wired in place.
7. Make sure the mounting surface is mechanically sound and free of obstruction(s). Secure the junction box to the mounting surface using appropriate fasteners (not included).
8. Make electrical connections matching wire colors (black to black, white to white and green to green/ground) and secure with wire nuts provided.
9. Ensure that no bare wires are exposed after electrical connections have been made and wire nuts are in place.
10. Arrange the wires inside the box and replace the cover.
11. Tighten retaining screws, being sure that all wires and connections are positioned inside the box and no wires are pinched between the lid and the box.
12. Turn power on. Fixtures can be added or linked together in two separate runs using the electrical connection ports on each side of the hardwire junction box.

WARNING! Save these instructions.

1. Do not use in wet locations (for indoor use only).
2. Turn power off before servicing in any way.
3. Properly ground the fixture.
4. Ensure that no bare wires are exposed or visible outside of the wire nuts/electrical connections.
5. Do not mount over sink or stove.

WARNING! Risk of fire:

Do not exceed 5 amps of total connected load!
