Product Name: GTbeans Clip-On Earbuds

Model: GTbeans C30

Wireless Version: V6.0

Earbuds Battery Capacity: 40mAh

Transmission Distance: 10 Meters **FCC ID:**2BMA9-A3000

Safety Instructions

Use only certified power adapters to charge C30 Earbuds

C30 headphones contains a built-in lithium-ion battery.

Do not disassemble or puncture. Keep away from children.

Avoid excessive bending or stretching the C30 Clip-On Earbuds to ensure optimal wearing comfort.

Do not expose C30 Clip-On Earbuds to heat sources, or dispose of it in fire, as it may cause explosion

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or in conjunction with any other antenna or transmitter.
